Unravel CIA Brainwash Network; Murder Plot Exposed

DETROIT, July 30 (IPS)— The National Caucus of Labor Committees has strong circumstantial evidence that youth around the Detroit Revolutionary Youth Movement (RYM) chapter were being subjected to brainwashing and other forms of coercion and menticide by CIA Law Enforcement Assistance Administration (LEAA) operatives, with the aim of using them to destroy Detroit RYM and transform its remnants into a Black Liberation Army counter-gang of terrorists.

Last Sunday, brainwashed former Detroit RYM members carrying sawed-off shotguns attempted to assassinate midwest Labor Committee organizers gathered at the Detroit Labor Committee office for an international briefing.

The modus operandi of the entire operation paralleled that used to turn many members of the Black Panther Party into BLA terrorists — in order to use them to destroy the Panthers.

Ties to Lincoln BLA Test Tube

This assassination attempt is directly linked to the criminal cover-up of the Lincoln Detoxification Unit/BLA terrorist operation by public officials — particularly Bronx (New York) District Attorney Mario Merola, who has directed a Grand Jury whitewash of the New York Lincoln Hospital brainwashing mill.

The Merola cover-up of Lincoln Detox ensured that such brainwashing operations would be mounted against the working class in other cities. In Detroit, an important aspect of the BLA-style operations was the assignment of FBI agent Vernon Higgins to infiltrate the Labor Committees and gather psychological profiles to be used for brainwashing psychologically vulnerable members. The refusal of Federal Judge Damon Keith to grant a temporary injunction against FBI infiltration and harassment of the Labor Committees, on the grounds the Labor Committees “were in no danger” — a refusal that occurred only a few days prior to the assassination attempt — inaugurated a pattern of high-level cover-up of the attack. This persisted when the Detroit FBI and police refused to investigate the assassination attempt, despite the violation of Federal firearms laws and the obvious murder attempt.

The assassination attack was stymied by the quick response of NCLC security personnel to the momentary hesitation of the youth. The subsequent

activation of these youth at the hands of their controllers has been forestalled by the immediate and far-reaching mobilization of the entire NCLC and North American Unemployed and Welfare Rights organization briefing network to expose the murder plot.

Personality Changes Point to Brainwashing

Affidavits and reports from relatives of Percy Wheeler, one of the youth involved in the assassination attempt, pertaining to his behavior over the recent period make a strong prima facie case that he has been subjected to brainwashing and other coercion.

Confirming evidence of this analysis is the report that Percy became extremely agitated at the return of Labor Committee member and national RYM organizer Tony Curry. Curry's return from New York to resume leadership of Detroit RYM organizing wrecked the alternative RYM/BLA scheme.

Over the past three weeks Percy has shown marked personality changes, and has stated that he is going to join the BLA — the zombie hit squad exposed by the Labor Committees as the creation of New York City's Lincoln Hospital Detoxification Unit. Percy is also reported to have become preoccupied recently with terrorism and guerrilla warfare, and has recently shot at least two people — one of whom he knew, and another with whom he had no apparent connection.

Reports from the past week indicate that Percy had set up a “separate defense group to start shooting cops and sniping.”

Much of Percy's behavior appears to have been instigated by his cousin Michael Tyler, also reported to have been armed and present at the attack on the international briefing meeting in Detroit.

There are indications that others in addition to Percy Wheeler and Michael Tyler have been subjected to behavior modification. Michael Tyler's brother Louie called the Detroit Labor Committee office last week and stated: “I am being brainwashed by the LEAA”!

The Assassination Attempt

The hit squad of four brainwashed youth attempted to enter the meeting hall where the Labor Committee was holding a regular international briefing on Sunday. They carried at least two shotguns, one of which was aimed at the head of an NCLC security officer with the threat to
