Given the key role of Yugoslavia in the current strategic situation, Brzezinski and his Trilateral agents are desperately seeking to maintain within Yugoslavia the tiny remaining pockets of subversive adherence to anti-Soviet non-alignment and local control economic policies, against the pro-revolutionary policy of Tito and the LCY.

PSYWAR ENFORCES FORD'S RETIREMENT

WASHINGTON, D.C., Dec. 26 (IPS)--In the week since he turned over control of the U.S. government to Nelson Rockefeller, President Ford has been subjected to a barrage of psywar articles and operations continuously reminding him that he is expendable.

In a bizarre incident, reminiscent of the time during the waning days of the Nixon presidency when an AWOL serviceman parked a stolen helicopter on the White House lawn, an obviously brainwashed man dressed as an Arab crashed his car into the White House grounds and played "tag" with Secret Servicemen for four hours Christmas morning.

The Rockefeller-controlled press has played this example of the CIA's domestic shenanigans as a "breach in security at the White House." President Ford, who was 2,000 miles away in Vail, Colorado, was awakened early Christmas morning to be briefed on the "tense confrontation."

It has since been made known that the would-be "Arab" assassin was Marshall Field, an American black who learned to speak Arabic in Libya, where his father worked for the Agency for International Development, a CIA front.

Meanwhile, the Colorado media have been slyly assaulting the vacationing Ford with numerous stories about the dangerous skiing conditions there ("over 100 avalanches this winter") and the dreadful lack of medical facilities at Vail ("the nearest hospital is 100 miles away on icy roads"). Juxtaposed to the story about Ford's vacation, yesterday's Denver Post ran the following headline: "Sheriff Calls Off Search for Skier Missing Four Days."

Ford has certainly gotten the message. Displaying a gallow's sense of humor, Ford joked with reporters yesterday, "You make me a justice of the peace [at Vail], and I'll quit [the Presidency]."
