Midwest, W. German Banks Hit Rockefeller With Currency Zone

CHICAGO, Sept. 9 (IPS) — Major Chicago banks, led by the First National of Chicago, are in regular communication with the directors of the West German Central Bank, and have reached agreement on a plan to develop dollar and deutschmark "currency zones," according to informed sources here. The currency zone plan — which would probably include fixed exchange rates with the currencies backed by gold — is generally considered by market analysts to be a means for anti-Rockefeller forces in both countries to attempt to bypass the bankrupt New York banking system.

According to Dr. Arthur Laffert, a University of Chicago professor and a financial advisor to certain Chicago-based interests, at least the two currency blocs should be set up — perhaps along with a Soviet ruble bloc and a Japanese yen bloc — all existing side-by-side in "healthy competition" with each other for markets. In a telephone interview with IPS today, Laffert said that this view corresponds with that of Dr. Otmar Emminger, vice president of the West German Central Bank (Bundesbank). Emminger recently wrote Laffert on the subject of currency blocs, complaining "we have been the prime victims of rapidly adjusting pegs (Rockefeller-demanded floating exchange rates — Ed.)" and proposing gold-backed dollar and deutschmark zones tied to each other. Laffert also noted that this is also the position of West German Chancellor Helmut Schmidt.

IPS has independently confirmed that thinking along similar lines is widespread in the West German Economics and Finance Ministries, as well as among officials of the Italian central bank, Banca d'Italia.

In the last two weeks, several spokesmen for Midwestern industrial interests have indicated agreement with such a plan. Former New York Federal Reserve Bank Chairman Arthur Hayes and First National of Chicago official

Eugene Birnbaum both called for dollar-deutschmark zones and a return to fixed rates earlier this month.

Plan "Toothless"

Despite its nature as a direct attack on Rockefeller monetary policy, the zone plan is generally worthless as a competent measure to restart world trade and production. Dr. Laffert readily agreed that selective debt moratoria on dollar-denominated debt — the crucial tactic of economic warfare against Rocky's New York banks and the only thing that could give "teeth" to the Chicago-West German plan — has been scrupulously avoided in the discussions. According to Laffert's mistaken reasoning, the Western Europe and the U.S. economies will survive the depression through extensive trade between the two fortresses with only necessary "spillover" trade with the outside world. Hypothetically, there would be no need under such arrangements for a single international reserve and trade currency — such as the gold-backed transferable ruble — or for a mechanism for world trade and development — such as the ICLC's proposed International Development Bank.

The hypothesis is idiotic on two counts. Firstly, the dollar itself cannot survive the imminent New York City default, a coming Third World debt moratorium, or even current Federal Reserve attempts to bail out the banking system. Rocky's banks cannot be "bypassed" but must be destroyed and replaced. This means a full replacement of the dollar. In addition, the plan significantly ignores not only the greatly expanded levels of trade and development needed to end the depression, but also current trade requirements. The Third World currently absorbs over 20 per cent of Western Europe's total exports; West Germany crucially needs to expand its already-high level of trade with the Soviet bloc. Shifts away from this tendency would only further devastate U.S. and European industry.

U.S. Banks Are Totally Busted!

Sept. 10 (IPS)—Hysterical scare stories peddled by Congressmen, State officials, and the financial press that a New York City default or debt moratoria would collapse the Wall Street commercial banks are a cover-up job for the truth! These financial institutions are already bankrupt and on the edge of a 1933-style breakdown panic.

New York commercial banks are broke—staying afloat by a purely speculative and short-lived scheme fueled by the bankruptcy of the Federal Government itself. Over the last ten days the Federal Reserve, has flooded the banking system with funds through the purchase of government securities from the banks. These additional bank reserves have been lent out to banks on a 24 hour basis only and are in turn invested at much higher yields in short-term Treasury notes.

The circulation of these Treasury bills with profits spinning off the banking system bears a marked resemblance to the Mefo bill system created by Hitler's Finance Minister Hjalmar Schacht, with one exception: Mefo bills were backed up by Nazi stormtroopers who guaranteed the looting of the German working class. Rockefeller's paper is backed up by nothing more than the income generating capacity of the Bureau of Engraving printing press.

Last Straw

This is the last profit-making operation of the banking system to cover its mass of bad loans on non-productive investment now estimated at half of its portfolio.

To make the working class pay for their losses on non-productive investment, the New York banks have declared that New York City is bankrupt. The U.S. Labor Party is calling for the

creation of a Special Commission to investigate this scandal.

Since the beginning of this year, the banking system has been in a technical state of bankruptcy, its bad loans in excess of its own equity base, and has survived a full-blown collapse by two actions. First, complicity with Federal Reserve Board Chairman Arthur Burns, the Federal Examiner, and bank accountants have illegally concealed the extent of these loan losses on a scale which makes the hidden deficits of New York City a business boom by comparison. Second, to shore up liquidity, the banks maintained their loan rate at more than 1.5 per cent above their payments — an interest spread twice the post-war average.

These actions have run their course. It is common knowledge that the New York banks are wracked by bad loans, and considered a poor credit risk. First National City Bank this week paid 0.375 per cent more on its iou notes than the debt-ridden Ford Motor Company. In addition, New York banks have offered higher interest rates on deposits than on loans. But still, according to a top investment house representative, no one is taking the offer.

At the same time, loans for production are drying up. Since the first of the year commercial and industrial loans of the nation's commercial banks have fallen by a record \$24 billion with no end in sight.

Under these circumstances Burns has offered the commercial banks a profitable new activity involving the accumulation of Treasury debt. But the Treasury itself is bankrupt. Until last week the Treasury had been financing its deficit through a \$6 billion drawdown of its account with the Fed. That account is now depleted.

World Payment System Will Fold Without Gold, Ruble Measures

Sept. 13 (IPS). — The world financial system's ability to handle payments between nations, the basis for international trade, will break down within the next three months — unless the world community chooses to break from the dollar credit sector. Not merely the trade of the developing countries, which is already near strangulation, but the trading lifeline of the industrialized world, will be wrecked by financial chaos.

This conclusion emerges from between the lines of reports of the International Monetary Fund and World Bank. The information they make public removes all surprise regarding Western Europe's sudden and virtually unanimous move to replace the dollar with gold as a principal monetary asset. In summary:

*The collapse of industrial countries' exports in the context of shrinking world trade — grossly underestimated by the IMF at a 10 per cent yearly rate of decline — leaves most of the industrial world with a devastating deficit on their balance of payments.

*This comes on top of a \$447 billion deficit on the account of producers of primary commodities, i.e., the underdeveloped countries, before their \$20 billion debt service for 1975 is taken into account.

*During the past year, these international deficits have been financed through the world's major money markets, in New York City, Western Europe, and the international, or "Eurodollar" market. Now the same capital markets that financed national deficits during the first six months of this year have been sucked dry, by the more than \$100 billion a year borrowing requirements of the U.S. Treasury, and similar borrowing requirements by the West German government.

Teetering on the Brink

In summary, the same wave of illiquidity that is hitting national credit systems will engulf the world monetary system as a whole. Its immediate impact will be to force France, Italy, Scandinavia, Japan, Australia, and New Zealand to adopt "Third World" import policies, in order to stop the outflow of payments to their suppliers. In turn, the collapse of these countries' imports — added to a drop in Third World imports of roughly 50 per cent over the second and third quarters of this year — will obliterate West Ger-

many's foreign trade, on which half its industry depends.

Last year, the deficit of the weakest industrialized countries ran close to \$30 billion on trade account, principally the result of the oil price rise engineered by the Rockefeller petroleum cartel: -

1974 Balance of Trade (Billions of Dollars)

Britain	-12.9
France	-3.9
Italy	-8.2
Others	-5.7

This year, the IMF expects "considerably smaller — although still sizeable deficits for France, Italy, and the United Kingdom," the result of a more than 20 per cent collapse in industrial output and similar declines in consumption, which reduced imports of industrial raw materials and consumer goods. These deficits drew on the international markets, which drew their funds from liquidity generated by the collapse of production worldwide. Third World countries, in turn, financed their deficits through a \$20 billion increase in short-term bank lending over the same approximate period.

Liquidity Sources Dry Up

This same monetary ratchet-process began to repeat itself during the summer: the collapse of production and trade "frees" excess funds which are then lent out through the banking system and bond markets to finance the resulting deficits.

But the present ratchet-collapse is exponentially greater than the last one. The reduction of industrialized countries' deficits from \$30 billion last year to roughly \$20 billion this year reflects bare-bones levels of imports; sufficient to maintain minimum levels of working-class consumption and industrial stockpiles of raw materials. The current round will produce economic holocaust.

During the first half of this year, the volume of international bond issues rose to \$5.5 billion, compared to merely \$4.5 billion during all of 1974. Three principal sources provided funds for these issues, which provided the critical margin of financing for advanced-sector countries' deficits between January and June: the New York capital market, the West German

capital market, and, to a much smaller extent, the capital markets of France, Holland, and Switzerland.

But these markets are now virtually closed off to international borrowers, due to the massive squeeze on liquidity in the national sectors which were, in better days, able to "spill off" liquidity onto the international markets. International bond issues fell from \$912 million in June to \$512 million in July, and to still lower levels in August. The first casualty has been the French franc, Dutch guilder, and other credit markets: "August has witnessed the virtual disappearance, albeit temporarily, of all sectors of the international bond market with the exception of the dollar bond sector," reports one of Europe's largest market-makers in a recent commentary. Then, in August, the West German Federal Bank slapped controls on the sale of bonds in West Germany on behalf of foreign borrowers, in order to provide funds to buy the West German government's own paper, issued at the stupendous rate of 2 billion marks per week. The German sector of the international market provided one-fifth of all funds issued.

Finally, the largest sector of the international market, New York City's money pool, has been devastated by the cancerous growth of U.S. Treasury borrowing requirements; initial estimates of a record \$40 billion borrowing requirement for the duration of 1975 are being revised upwards at the rate of several billion dollars a week, due to the collapse of Treasury tax revenues and other sources of Federal income.

Equally, the medium-term Eurodollar lending market, in which up to several hundred banks chip in for large international loans, is exhausted. Advanced-sector countries, hit by the oil price increase and the collapse of trade, covered more than half their deficit last year, or \$17 billion, through Eurodollar loans. But during the first half of 1975, they borrowed a mere \$1.9 billion. Those funds remaining in the Eurodollar pool after the bankruptcy of West Germany's Herstatt Bank nearly brought down the lot in the Summer of 1974, went to emergency re-financing operations this year; Brazil, Mexico, and Indonesia alone absorbed most of international lending.

Most international loans are funded

by 6-month money obtained by the banks in the U.S. market, then re-lent to foreign customers through bank branches in London, Frankfurt, and other international centers. But the fierce competition for short-term money in the U.S. has dried up the banks' sources of funds stateside, since available cash is pouring into high-interest U.S. Treasury paper.

What has occurred is that the gutting of the productive sector of the world economy to create the means of refinancing debt began to backfire over the June 30 payments deadline. Starting from debt-strapped national and local governments in the U.S., Germany, France, Great Britain, Japan, and Italy, the requirement for debt-financing has leapt upwards, as a direct consequence of the previous period of looting. As IPS predicted in January 1975, the available financial means would be exhausted before the year was out.

The next stage is national bankruptcy, a point which Great Britain and Italy have reached, whence Japan will follow, to be joined soon by the Scandinavian countries. If the present trend continues, the upshot will be a rapid drain of national reserves, the collapse of national currencies, import controls and other protectionist devices — a virtual cessation of international trade and paralysis of the majority of the advanced sector's industrial capacity. This is the algebra of the dollar system.

There is a simple alternative: the use of the gold reserves of Western Europe and the socialist countries to generate a new kind of international trading credit while the old, dollar-based credit system falls to bits. There would be no one to mourn but Wall Street.

U.S. Credit Collapse-- The Last Fortress Goes

Sept. 13 (IPS) — U.S. Under-Secretary for Monetary Affairs, Edwin Yeo III, admitted this week that the relation between Federal Government tax receipts and spending requirements is completely out of control. The admission came in a press conference announcement that the borrowing needs of the Treasury had jumped by \$6 billion in one month's time.

For the last 400 years, capitalists have regarded such a loss of control in State financial management as the most direct evidence of national bankruptcy. Thus minutes after the Treasury disclosure, a wave of panic hit the government market — the cornerstone of the dollar credit sector — and threatened to interrupt billions of dollars in credit transactions of the more financially bankrupt states, municipalities, and corporations. Treasury note prices instantly dropped nearly one point before the markets shut down Wednesday afternoon and, according to a bond trader at Morgan, Stanley, would have fallen through the floor Thursday had government dealers had notes on hand to dump.

Friday morning, the cash-depleted Treasury flooded the market with several billion dollars in IOU's. With few buyers, prices again collapsed, until the Federal Reserve sopped them up with freshly printed, inflationary greenbacks. New York and Chicago commercial banks, previously the buyers of Treasury debt, waited for prices to drop further, before snatching them up a nicle on the dollar like the assets of a bankrupt corporation.

The Treasury's frustration in the sale of its own paper at other than bargain basement prices has been compounded by its inability to liquidate its real assets. Interior Department sources revealed this week that it has only found buyers for one-tenth of the 10 million acres of off-shore oil leasing rights scheduled for sale this year, and this at a loss of \$4 billion.

Immediate Repercussions

Panic in the government market spilled over into the tax-exempt market threatening a chain reaction of service shutdowns and defaults among states and municipalities. New York State's \$750 million note issue, designed, in part, to bail out New York City, went for an astronomical 8.7 per cent only after the already bankrupt New York commercial banks rushed in to absorb them at the last minute. The issue is still not completely sold. Thus New York State is faced with a default on its

own current debt obligations.

Against this background, the New York State Housing Finance Agency, faced with a \$100 million in borrowing needs over the next month is, according to a top level official, "living from day-to-day." Simultaneously, the Massachusetts Housing Finance Authority, unable to raise \$148 million through note issues, faces the prospect of default on \$108 million in debt obligations due for payment on Monday.

These developments, however, are only the tip of the iceberg. Presently 90 per cent of net new investments in the municipal bond markets are by individuals in the middle and upper-middle income brackets. With the exception of New York, the commercial banks, casualty companies and savings institutions have completely withdrawn. As prices on Treasury bills collapse and their interest rates balloon, the last remaining individual investors will move into the relatively more safe, liquid and profitable Treasury debt. The collapse of the municipal market on Thursday and Friday in response to the plunge in Treasury prices indicates that this process is already at work.

Traditionally, the finance of trade and production has depended entirely upon the capacity of a Central Bank to discount and rediscount (convert into cash) bills of exchange and letters of credit. Such cash, in the form of Federal Reserve notes, and otherwise known as greenbacks, has itself depended on the income generating capacity of the U.S. Treasury. Its collapse calls into question the value of Federal Reserve paper and now threatens the complete shutdown of all trade transactions. With the contraction of Treasury income greenbacks will be used to finance the State debt — not production and trade.

On With Inflation

Federal Reserve Board Chairman Arthur Burns' announcement on Thursday that the Federal Government will bail out the New York commercial banks is itself a joke in this regard. Previous to this week's market collapse in government debt, the U.S. Treasury ran up against a cash squeeze unparalleled in recent history. Its emergency checking accounts exhausted by three months of government spending overruns, the Treasury was hit by cash claims of over \$800 million due to foreign central bank dumping of non-marketable Treasury securities of the

same amount. In response, the Treasury flooded the market an emergency issue of 13- and 18-day paper absorbed by commercial banks with overnight money made available by the Fed itself. Commercial banks, themselves bankrupt, are now refusing to buy now in anticipation of greater profits later — a speculative move governed by their own illiquidity crisis.

The Treasury estimate of \$6 billion in additional borrowing requirements for the remainder of this year however, is wide of the mark. Its own revised estimate is attributed entirely to overrun in government spending presumably due to defense industry bailouts, and to revenue losses due to the elimination of oil import fees. It does not include what will be a massive short-fall in Sept. 15 tax receipts caused by the depression collapse of corporate profits, and additional government costs caused by the return of double-digit inflation.

Furthermore, the renewed collapse of production anticipated by the last sharp downturn in retail sales will dramatically diminish tax receipts and increase government spending. President Ford has already resigned himself to a tax-cut extension that will mean \$10 billion in revenue losses. It is no exaggeration that the Treasury will be revising its budget deficit upward at a rate of \$6 billion a month.

A self-aggravating crisis, the collapse of the economy will contract federal tax receipts and, in turn, will require greater borrowing at higher interest. These higher interest rates will attract such funds only at the expense of states, municipalities, and the entire private sector economy.

Special Report-- Portugal

State Department Plans Carvalho Coup in Portugal

by Richard Schulman

Sept. 9 (IPS)—A NATO coup d'etat under the leadership of the Maoist General Otelo Saraiva de Carvalho is being readied against the Portuguese working class, IPS learned today from three different sources.

Two of these sources indicated that the State Department is considering "running with" a Carvalho left-populist dictatorship to defuse the working-class rage building up both within Portugal and internationally at the destruction of the Portuguese economy and the destabilization of the pro-working class government—operations coordinated by the U.S. Ambassador to Portugal, Frankie Carlucci.

Under Carlucci's direction, pro-working-class soldiers and officers are being purged from the armed forces, while the previously defunct Revolutionary Council has unilaterally revived itself as a counter-revolutionary body controlled by a majority of social-democratic-oriented NATO officers. New press laws are specifically designed to muzzle the pro-Communist Lisbon press and suppress pro-communist views within the military.

But the Portuguese working class has not been so easy to defeat, and emerging signs of a Communist-led upsurge show that Carlucci and Co. moved too far, too fast in their attempts to depoliticize the army and cut the Communist Party (PCP) off from the ruling Armed Forces Movement. The most obvious effect of resistance to the State Department-led right wing is the unilateral decision by Premier Vasco Goncalves and his Communist-backed Fifth Provisional Government today to remain in power until the successor government is ready to come in. Goncalves and his cabinet were scheduled to resign yesterday.

While the Portuguese working class organizes for a comeback under the slogan: "Counter-revolutionaries out of the military!" the NATO forces are at least momentarily stalled, leaving the political situation in Portugal temporarily stalemated.

Softening Tactic

Henry Kissinger's State Department planners, however otherwise clinically insane, know that if they move now with their cherished dream of a fascist bloodbath led by former Portuguese President Gen. Antonio de Spinoia, they themselves run the risk of being smashed or losing the rest of Western

Europe, including Spain, to an enraged working class.

Hence the serious contingency plans for a left-populist counterinsurgency coup led by Carvalho's COPCON security troops, with the behind-the-scenes backing of the "moderate" generals of the Revolutionary Council—a tactic to soften workers up for the Chilean kill by means of a brief but heavy dose of peasant and worker "local control."

"One way it might go is for a left-wing Carvalho takeover," a Portugal think-tanker at the Foreign Policy Research Institute confided to a free-lance journalist over the phone recently. "It would be strong along the lines of what Peru was originally," he continued. The FPRI is widely known as a NATO think-tank. The Portugal specialist boasted that he had just completed a contract for the government in which he had specifically investigated the "possibility" of a Carvalho coup. "We did some work in-house here and what I said was that a juncture would come at a critical point, and the critical point has just about been reached."

The State Department is hoping that through such an option they can play on what they imagine to be a Portuguese Communist Party weakness in the face of civil war threats, and coordinated CIA "wearing down" operation.

The Carvalho "left coup" scenario was mooted by another CIA think-tanker on the other side of the country. Peter Witenki of the notorious Rockefeller-linked Hoover Institute for War and Peace at Stanford University in response to questions from another free-lance reporter said, "We are going to see a rightist government or a left-wing Peronist type government ruled by somebody like Carvalho." Witenki went on to stress how easy it would be in either case to manipulate peasant ideology through populist promises of providing small plots of land. "The peasants believe in property . . . They have small farms, really primitive."

Today's Italian newspaper Il Globo, which is partly owned by the industrialist Eugenio Cefis, also reports a crescendo of rumors regarding a Carvalho coup.

The working class is also on the move. Once the Fifth Provisional Government reinstated itself, the "socialist" countergangs quickly changed their tune. Previously the Portuguese Socialist Party and its ally, the PPD, were deliberately sabotaging the nego-

tiations for a new ruling coalition, so as to leave Portugal with no government at all. The PPD had declared that it would not take part in the government unless the PCP were totally excluded and the Armed Forces Movement dissolved—demands it knew to be politically impossible. But now the political climate is such that the PPD has had to soften its line toward the PCP. The Communists have affirmed that they, however, will sit in no government with the fascist PPD.

Today the Fifth Provisional government is issuing a call for workers to elect factory and regional delegations to join with it in planning a development policy for the economy. Military confrontation is unlikely to be far away.

The State Department hopes that the PCP will be fooled into thinking that a Carvalho-led "Peruvianist" coup would be preferable to a government coalition with "Socialist" chief agent Mario Soares or the now-NATO-controlled Revolutionary Council.

Hence international working class mobilization in defense of Portugal throwing out gorilla Carlucci along with his Portuguese military agents is more urgent than ever, together with support for Portugal's immediate entry into the growing Third World bloc of nations in favor of industrial development based on ruble-financed expanded East-West trade. This is the only basis, in the face of CIA economic blockade and sabotage, for providing credits such as those requested from the government by a recent farm and metalworkers' conference in Portugal's South.

Against this, the Second International, General Spinoia, Maoist General Carvalho, and the majority now controlling Portugal's Revolutionary Council are deploying as one U.S. State Department orchestrated movement. The pro-Communist Portuguese press on Monday ran an expose authored by the pro-working-class Fifth Division and suppressed two weeks ago by Portugal's President, General Costa Gomes, on orders from Carlucci. The expose reveals that PSP leader Mario Soares and his Second International cohorts were working hand-in-glove with the fascist General Spinoia in organizing the latter's abortive March 11 coup. Soares is also widely known to have been crestfallen at the failure of Spinoia's earlier unsuccessful September 1974 "silent majority" coup attempt. Both coups were defeated by a PCP-led worker-soldier mobilization.

PCP is Back on the Offensive; Agents Still Active

by Robert Bourne

Sept. 14 (IPS)—The Portuguese Communist Party has gone back on the offensive with a broad organizing drive among both industrial and agricultural workers and the ruling Armed Forces Movement. While PCP-led resistance to the counterrevolutionary mobilization of NATO-controlled right-wing military officers continues to grow, these officers have stepped up their own offensive with the highly provocative ouster of pro-Communist northern regional commander Gen. Corvacho.

Last Friday Communist Party head Alvaro Cunhal told a metalworkers' assembly in the Lisbon suburb of Amadora, "The PCP is also against the formation of a government that is incapable of guaranteeing the achievements of the working class, achieved through the revolution, especially the nationalizations and agrarian reform."

As another condition for his party's participation in the new government, Cunhal demanded a commitment to the defense of the legal rights of working-class organizations, their members and offices. Cunhal also stressed the strengthening of "the alliance between the working class and progressive officers," in reply to right-wing attempts to isolate and destroy the MFA as a mass-based formation.

Cunhal's statement, backed by the Communists' organizing drive throughout the country, is intended to place the country's new, still-to-be-formed governing coalition under heavy pressure to uphold the legally enacted program of the revolution if it wants to remain in office for very long. Latest reports are that the new government will be announced shortly.

Coup Plans Halted

The working class' mobilization has ground to a halt the mootings and plans for a right-wing coup, at least temporarily. Gen. Spínola, former president of Portugal and veteran of two unsuccessful coup attempts in the last year, left Paris unexpectedly early yesterday to return to his exile haven in Brazil. Fascist Spínola had been greeted with an unrelenting campaign by the French Communist Party to get him thrown out of the country, part of the international communist mobilization to defend the Portuguese revolution.

In the same vein, anti-communist Gen. Carvalho has been prevented by splits within his COPCON security forces from carrying out any sort of

coup attempt, as was mooted last week by U.S. State Department and CIA think-tank sources. Carvalho has turned to his allies in the notoriously ultrareactionary Maoist MRPP, with whose leader, the London Economist reports, Carvalho has recently had several "long heart-to-heart sessions."

But NATO continues to plot against the PCP and the revolution. The Atlantic Assembly, NATO's parliamentary group, will be meeting Sept. 21-26 to "discuss Portugal." This makes the international mobilization in defense of the Portuguese revolution and against the blockade of Portugal more crucial than ever.

Right Provocation

On the same day as Cunhal's speech, pro-Communist Brig. Gen. Corvacho was replaced as commander of the country's northern region by Brig. Gen. Veloso, reported to be a "strong anti-communist." With this move, the NATO officers now in control of the MFA leadership have succeeded in turning all four of the country's regional commandships over to anti-communist officers.

This provocation followed a mass anti-fascist demonstration in the northern city of Porto, headquarters of the region's military command, against Corvacho's removal. On Sept. 10 thousands of soldiers from 33 military units around the country marched alongside tens of thousands of militants from workers and neighborhood commissions in a rally called by the semi-clandestine "United Soldiers Will Win" (SUV) progressive military group. The anti-communist army boss Gen. Fabaio, who had done his utmost to prevent the rally from taking place, was jeered with shouts of, "Down with Fabaio, apprentice of Pinochet!"

Under the slogans "Reactionaries out of the barracks" and "Portugal will not be the Chile of Europe," the SUV announced its intention to extend its organizing to barracks everywhere in Portugal and construct soviet-style "popular assemblies" in conjunction with local mass-based organizations. The launching of the SUV as a national formation is in accordance with marching orders issued by Communist leader Cunhal to "rebuild the MFA as a revolutionary force in the spirit of April 25," referring to the original overthrow of the Caetano dictatorship.

Working-Class Offensive

Also on Sept. 10, workers from Port-

ugal's largest industrial concern, CUF, met in assembly with pro-Communist military officers to coordinate their offensive. At the assembly, Marine Commandant Albuquerque stated that "the workers have the right to complain about the men who made April 25, but another April 25 will reappear and lead the people to victory." A representative of Portugal's PCP-controlled national trade union federation, Intersindical, called for the ouster of fascist officers and added, "We are on the side of the progressive military, those who are going to give us arms to fight on their side."

At another meeting the Intersindical executive body condemned the "massive economic boycott started against Portugal by the imperialist states of Western Europe and the U.S. with the support of the international Social Democracy," pointing out that Portugal "could strongly rely on the solidarity of the socialist countries."

The thrust into the MFA was taken up by farmworkers' unions in the southern regions of Santarem, Evora, Beja, Portalegre, Faro, and Lisbon. The unions called for a meeting in the city of Santarem "to strengthen unity in the MFA and ensure progress along the revolutionary path." The farmworkers are also calling for the stepped-up actualization of agrarian reform measures. In the southern city of Beja, meanwhile, farmworkers and metalworkers met Sept. 10 to voice similar demands, including a call for credits to buy machinery.

Special Report:

NY Legislature Passes New MAC to Bail Out Banks

by L. Wolfe

NEW YORK, Sept. 9 (IPS)—David Rockefeller's Big MAC II plan to save his New York banks from bankruptcy narrowly squeaked through the Special Session of the New York State Legislature today. The plan, under which billions of dollars in city and state revenues and union pension funds will pour into the banks' coffers in a jet stream when New York City eventually defaults, was signed into law tonight by Governor Carey, the Rockefeller lackey most immediately responsible for securing its passage.

Just prior to the final votes in the Assembly and State Senate, discussion of the alternative to bankers' looting schemes—a statewide debt moratorium—occurred on the floor for announced their intention to introduce moratorium legislation — legislation that would supercede the Rockefeller MAC plan — when the legislature resumes its session. Several others have nervously expressed support for the proposal.

Rockefeller has at best won a Pyrrhic victory. The new MAC plan cannot stop a default by the city, only delay it for a brief period of time. It is officially supposed to carry the city through December. Financial sources expect it to fall apart long before that. More significantly the Rockefeller banks, themselves already as bankrupt as the city, plan to suck whatever loot is turned over to MAC into their own day-to-day operations in order to stay afloat. The banks' ability to prevent a run on their deposits by hysterical investors is at this point dependent on Rockefeller's ability to convince them that he has the political muscle to continue to secure his loot in New York.

Arabs Call Bluff

Rockefeller's bluff is already being called. IPS learned today that the Arab sheikhs are in the process of pulling their billions from the vaults of the New York banks and depositing them in Chicago and elsewhere. One banking source said that the Arabs fear that the New York banks would not be able to secure their assets when New York City defaults.

The \$2.3 billion bail-out plan, like all the other schemes put forward previously by the Rockefeller schemers, has an unmistakable hodge-podge character—a little loot from here, a little loot from there—all to eventually find its way into Rockefeller vaults.

*\$750 million to be looted from state and city pension funds, with the blessing of Victor "Bumgut" Gotbaum of AFSCME District Council 37 and the universal displeasure of the rest of the state union movement.

*\$750 million to be borrowed by the state in tax anticipation notes at exorbitant interest rates and turned over to MAC.

*\$800 million from other "private financial sources" (the banks) and government sources. Sources close to the Governor's office refused to say from what hat this money would be pulled.

The critical financial feature of the plan is that it inexorably ties the state revenues to the payment of city debt. In the event of city default, state monies would be pumped into the Rockefeller banks to cover the bad city paper.

The Plan also sets up a seven-member financial control board whose mission it is to "put the city's house in order." This body, which effectively replaces the city government, will enforce new levels of austerity that will secure additional loot for the Rockefeller banks when the city defaults. "The board is like the one who gives out the chips in a casino," Governor Carey said yesterday. "You go to the window and get your chips and play the game." As most people realize, everyone who plays in a casino loses—and winds up paying the bank.

Debate in Legislature

Debate on the MAC plan on the floor of the legislature did not begin until Monday. With several other assemblymen already speaking about "voluntary default", Assemblyman Arthur Eve (D-Buffalo) broke the ice on the debt moratorium. Eve, who that morning was the target of a Labor Party leaflet for his capitulation to Carey's lies in the Friday Black and Puerto Rican Caucus meeting and his helping swing those votes to the MAC plan, told the Assembly that he supported the MAC bill "but personally I would favor a debt moratorium for all municipalities . . . but I understand it's not possible." Eve cited as his principal reason: the banks wouldn't like it.

The cat was now out of the bag. Assemblyman Peter Barbaro (D-Bklyn), who had previously raised the debt moratorium in the Democratic Study Group meeting with Carey, now raised it in the Assembly. Describing the extent of ecological holocaust

already hitting New York City. Barbaro said, "Garbage is piled in the streets, in some places 10 feet high . . . People are dying, waiting for emergency care in the hospitals . . . This bill (the MAC plan) would provide no answer, only more cutbacks, and no further cutbacks can be made . . ."

Barbaro then announced his plans to introduce legislation calling for a 1 per cent tax on bank assets, and a statewide moratorium on municipal debt when the legislature resumes its session. Reading from the USLP legal brief on debt moratorium, Barbaro cited the Hughes 1934 Supreme Court decision on the priority of state and municipal services over "contractual obligations (debt)" as sufficient precedent. As the words "debt moratorium" hit the floor, Assemblymen could be seen looking at copies of the USLP legal brief. Several began to pass copies around.

Rockefeller flunkey, Assembly Speaker Stanley Steingut (D-Bklyn), fearing that the moratorium would become the topic of the debate, moved rapidly to cut things off. "The debate is over, I adjourn the session until 8:30," he screamed pounding his gavel.

With the floor still buzzing about Barbaro's speech, Assembly Minority leader Perry Duryea (R-LI) declared that he waived the Republicans' right to debate and called for immediate vote on the MAC plan.

The plan squeaked through by a vote of 80-70, with several Democratic Assemblymen voicing their reservations as they cast their yes votes.

In the Senate Also

Later that evening, in the debate in the Senate, Sen. Karen Burstein (D-Queens) announced that she would co-sponsor legislation being drafted by another Senator "who was not present" calling for a debt moratorium. IPS has since learned that the Senator referred to is Sen. Vander Beatty (D-Bklyn).

At 4 a.m., the Senate passed the MAC plan 33-26.

In order to wrestle votes for the MAC package at the Friday caucus meetings, the Governor had promised to reconvene the legislature in the next two weeks to consider long-term plans for the reorganization of the city. Sources in Albany today doubted that Governor Carey was really serious about keeping his promise. At some point in the next several weeks, however, the crisis will again reach another critical inflection and Carey will be forced to summon the

legislature into session to deal with it. The subdued rebellion in Albany against the MAC looting proposal and the open expressions of support for the debt moratorium provide clear indication that the bankers' austerity drive has passed all acceptable political limits. Each call for additional sacrifice to save the New York banks through cutbacks in services will fuel that rebellion, bringing the debt moratorium closer to becoming law.

Pakistan at UN: Cancelling Debt is Top Priority

by Bob Dreyfuss

UNITED NATIONS, N.Y., Sept. 10 (IPS)—Feroz Kaiser, chairman of the Pakistani delegation to the 7th Special Session of the U.N. General Assembly on development and economic cooperation, declared yesterday that Pakistan supports an "agreement in principle" "at this session" for a blanket moratorium on external debt for developing countries. In the sharpest statement to emerge thus far at the UN Special Session on the debt issue, Kaiser termed a moratorium on the Third World's \$120 billion debt "an imperative necessity," citing the fact that half of all so called development assistance is now taken up by refinancing existing debt service!

"What is more," said Kaiser, "in most cases the development objectives for which the debts were contracted have not been achieved due to lack of progress in other areas," such as access to markets and low technology. Recognizing the need for development to provide the means to repay foreign debt, Kaiser further proposed that the debt moratorium be continued "until the objectives for which the specific development loans were provided are attained."

From the public speeches of UN delegates and from dozens of exclusive interviews with participants in the strategy debate, it is clear that the overwhelming majority of the nations represented are actively preparing to replace the discredited U.S. dollar-based Bretton Woods monetary system with another geared not to mere debt refinancing but to production and transfer of real wealth.

Like the Pakistani representative, UN delegates are increasingly targeting the most damning aspect of the Dollar Empire--the crushing burden of debt. Representative G.R. Bandaranaike of Sri Lanka was most explicit: "The burden of external debt of developing countries...constitutes today a serious obstacle to the economic growth and social development of these countries."

"The problems of the most seriously affected countries are so serious that they simply cannot wait until 1976," continued Bandaranaike. Citing the Group of 77 non-aligned countries' endorsement of debt cancellation, he urged "that the appropriate international agencies take immediate steps to implement these provisions so

that no country burdened by debt would be compelled to default."

Afghanistan also officially joined the growing list of countries calling openly for a debt moratorium. In addition, numerous private conversations with officials of Third World countries elicited near-unanimous support for debt moratoria. Foreign Minister Frederick Wills of Guyana, asked whether he would favor a Third World debt moratorium, told IPS in a personal interview: "Yes. Emphatically yes. This is a necessity for the whole Third World."

The extent of support for IDB-type proposals was underlined by statements by representatives of UNCTAD and Israel. Secretary-General Gamani Correa of the UN Conference on Trade and Development (UNCTAD) told a press briefing yesterday that UNCTAD would promote "triangular" trade among the Comecon socialist countries, the Western industrial states, and the developing sector. Correa also attacked as, "intolerable" the debt burden now strangling world trade.

In a development completely blacked out in the press, Israeli Ambassador Chaim Herzog offered cooperation to Israel's Arab neighbors based on the integration of Israel's highly developed technological potential into a "regional project." Borrowing heavily from a widely circulated ICLC Resolution on Israel published in July, Herzog declared that Israel "is prepared to place at the disposal of our neighbors...the benefits of our research and development" in the fields of energy, desalination, and agricultural techniques for arid land. While Herzog did not indicate any proposals regarding the other half of the ICLC-statement-- the necessity for Israel to seek Soviet mediation toward a comprehensive solution of the Palestine Question--the statement indicates the depth of pro-development feeling among the Israeli population.

Rockefeller flunkey Henry Kissinger has been forced by this development to resort to outright economic blackmail moves to split the united front of developing countries. Several UN sources report backroom maneuvering by Kissinger to win "favors" from cooperative delegations. "We believe that Kissinger is trying to split the oil-producing countries from the rest of the developing countries," said one foreign

minister privately. In his remarks and in the U.S. negotiating paper, Kissinger attempted to blame the crisis in the developing sector on OPEC, the oil producers' cartel. He was aided by the delegation from CIA-controlled Zaire, who criticized the Arabs--among whom Iraq and Algeria are the vital leadership of the socialist, pro-development motion -- for raising oil prices.

Kissinger sought to "defuse the Arab potential for being leaders of the Third World 'new economic order'," said Guyana's Mr. Wills. "That was one of his objectives."

The shadow of right-wing coups d'etat of varying degrees of success in Bangladesh, Peru, and Ecuador by Kissinger's National Security Council-directed political terror apparatus hangs over the UN proceedings. In addition, hints that the U.S. will make tactical concessions on minor issues related to commodity prices and income stabilization have enticed some wavering Third World countries away from the united front led by Iraq, Algeria, and Mexico.

Faced with the Rockefeller-Kissinger counteroffensive, a number of Third World delegates reacted skeptically when asked about the IDB, debt moratoria, and triangular trade, preferring to concentrate on more "practical" matters-- precisely those on which Kissinger can be expected to make "liberal" compromises.

Throughout the UN Special Session thus far, the role of the Labor Committees has been to locate the significance of otherwise apparently unrelated economic and financial issues and proposals in the process of convergence toward the IDB. The general impact of a year or more of programmatic organizing combined with a saturation of UN delegates in New York, as in Lima, Peru during the Conference of Non-Aligned Countries, has been the crucial, determining influence of the UN debate.

The further spread of ICLC ideas is readily visible in the corridors and lounges surrounding the various conference rooms. Numbers of delegates can be seen reading New Solidarity or approaching IPS correspondents for discussion of the debt moratorium and the IDB.

Kissinger Attempts to Sabotage Debt Moratoria Discussion at United Nations

UNITED NATIONS; N.Y., Sept. 14 (IPS) — A last-minute intervention into the negotiations of the Special Session of the United Nations General Assembly by high level State Department officials, including personal intervention by U.S. Secretary of State Henry Kissinger, threatened today to force an open confrontation between the United States and the Group of 77 developing nations.

Minor concessions by the U.S., aimed at splitting weaker members of the non-aligned group away from the united front led by Iraq and Algeria, have not obscured the flat refusal of the U.S. to accept even the minimal key demands of the Group of 77 on trade and development. Meanwhile, Kissinger deployed Thomas Enders, Assistant Secretary of State for Economic Affairs and widely hated and feared in the Third World, to New York Friday night with a dual assignment: First, to pull in the reins on wavering Western European delegates who were under pressure at home to break with the Dollar Empire and accept Third World offers of cooperation; and second, break the ranks of the Third World.

"What we fear," said a member of a leading Third World delegation, "is that the U.S. and its agent regimes in the developing sector may use threats and also promises of aid and loans to sway the vote of the Group of 77." The source revealed that Iraq, backed by Algeria and Peru, was hammering away throughout the closed meetings of the Group of 77 caucus at a single theme: That the U.S. dollar is bankrupt and cannot finance development.

"Kissinger's promises of aid are worthless," said the source. "The banks cannot even refinance New York City's debt. How can they support development?"

Foremost Issue: Dump the Dept

The bankruptcy of the banking system of the Rockefeller-led Dollar Empire and the urgent need to sweep away the ruins of the 1944 Bretton Woods monetary system and replace it with another geared to real production and development have been the focus of the whole United Nations General Assembly Special Session. Throughout the proceedings, speaker after speaker has called for a debt moratorium as the first priority toward that goal. "Debt is what the whole conference is about," an Algerian delegate told IPS.

Yesterday the U.S. won a partial victory when the words "including moratorium and-or rescheduling of debt repayment" were dropped by the Group of 77 from their working paper. The U.S., backed by obsequious European Economic Community and Japanese delegations, had demanded the removal of the phrase. Conference sources revealed to IPS that the motion to drop the phrase in the Group of 77 meeting came from the Rockefeller-puppet regime of Iran!

Kissinger's victory may have been Pyrrhic, however. Spurred by continual ruthless organizing by Iraq and Algeria, Third World delegations have begun to toughen up. In a press conference this morning, U.S. Ambassador Daniel Moynihan hysterically charged that the Third World delegates "do not really represent" the masses in the developing world, and claimed that concessions made during last night's talks by the Third World had been taken back this morning.

"Things have gotten worse," whined the fat Moynihan.

What had in fact occurred, IPS learned this afternoon, was that the Venezuelan delegate Perez Guerrero had made concessions to the U.S. under intense pressure—concessions that Iraq and Algeria, among others, felt were "unauthorized." During this morning's session, Enders called Guerrero out of the closed Group of 77 meeting for a personal phone conversation with hysterical Henry Kissinger. Enders was seen leading a trembling Guerrero to a telephone. Leading delegates were quickly apprised of Kissinger's interference.

Henry's Fears

What fat Henry fears most is that should the developing countries win a psychological victory at the UN, wresting concessions from the U.S. and EEC, the dam will burst, sending Western Europe into a headlong rush to dump the dollar and set up triangular trade arrangements and debt moratoria.

Conference sources reported today that the Dutch were considering breaking with the EEC position and joining Sweden in calling for a debt moratorium. And in West Germany, the industrialist-based weekly Handelsblatt came out in favor of Third World debt cancellation!

The momentum of a UN victory by the Group of 77 would catalyze such sentiment in Western Europe, Kissinger fears, on the eve of key conferences in Paris on energy and at UNCTAD

(UN Conference on Trade and Development) on Oct. 27.

A member of the French delegation told IPS that France was acting against its own interests in supporting the U.S. at the UN. "It's simple," he said. "We respect the power of the U.S.—economically, politically, militarily." such cowardice will bring about the fall of Atlanticist regimes in France and West Germany in months.

EEC vacillation during the conference was disgusting, and one Group of 77 delegate told IPS that asked Europe's representatives: "Are you plenipotentiaries or dummies?"

Informed that Iraq and Algeria were educating the non-aligned caucus on the true value of the worthless dollar, Ambassador Moynihan snapped in an interview, "So we'll use the Algerian Peso, eh?" The Algerian national currency is the Dinar.

Moynihan's sidekick Bennett then wildly announced, "Algeria and Iraq have been out to wreck this conference from the beginning." Algeria was the chief organizer of the UN Conference!

Late tonight the Group of 77 will meet to decide its final negotiating stand. So angered were the Group of 77 representatives by the intransigent stand of the U.S. on substantive issues that their delegates were openly speaking of breaking off talks and returning to their original Working Paper.

Special Report:

NSC Reading Terror Ring Ready to Crack

Sept. 9 (IPS) New information received by the U.S. Labor Party in the past week indicates that efforts by the National Security Council (NSC) and allied police agencies to cover up a series of murders and robberies in the Reading, Pa. area have failed, and that a number of key principals in these crimes face imminent imprisonment. If these defendants — each of them directly involved in the Kissinger-NSC drug and gun-running operation headquartered in Reading — are successfully brought to justice, then the whole NSC international terrorist network can be cracked open. All that remains is for the U.S. working class and pro-working class journalists and politicians to focus enough of a spotlight on Reading to guarantee that Kissinger's "spooks" are kept in check.

Tomorrow afternoon, former NSC operative Roy Frankhauser — whose July 28 CBS television interview gave national exposure to the Maoist Revolutionary Union (RU) role in conducting of explosives for the Pontiac bus bombings and other terrorist operations — will be holding a press conference in Trenton, N.J. At that time he will provide previously unreleased evidence of this faltering NSC coverup, as well as further details of the gun and drug running.

The Goldberg Variations

One of the prime actors in the NSC's Reading cabal, Lt. Paul Goldberg of the Reading Police Department Intelligence Division has his head precariously close to the chopping block. Goldberg's testimony at the recently concluded second trial of Clarence Williams — charged with the March, 1975 murder of RU gun-runner Norman DeBooth — opened him up to perjury charges. Charges against Williams were dropped last week when the judge granted a defense counsel double jeopardy motion. Goldberg contradicted testimony already in the court records, identifying him as the liaison man between the LEAA, FBI and Treasury Department to area undercover agents, including Lemond DeBooth, Norman's uncle, who coordinated the transportation of explosives for the RU.

Bertram Jones, head of the Reading RU and Vice President of the United Rubber Workers (URW) local at Firestone Rubber, is now under attack from several directions. Next week, Jones goes on trial on charges of robbing a

warehouse that could land him in jail for 7-14 years. District Attorney Robert Van Hoove, who is also considering the perjury charges against Goldberg and who recently won a conviction of local Mafia boss and FBI collaborator Joe Biancone, is prosecuting the case against Jones.

The warehouse robbery, one of many carried out by the Reading RU group since 1971, was actually a routine method of payment for services rendered to federal police agencies. Police officials would either know about these robberies in advance or would take necessary steps to guarantee that any after-the-fact investigation was unsuccessful. Jones was never supposed to have to stand trial.

Simultaneous with his scheduled day in court, Jones is also the target of a U.S. Labor Party-initiated campaign to recall him from his URW position.

Word of the recall campaign has already expanded beyond the membership of the Firestone local. During a distribution this week in Pottstown, Labor Party organizers were approached by a police official who offered his support in driving Jones and the RU gang out of the area — and for good reason. Dr. Steven Levin, an RU member referred to by Jones as "that wonderful doctor from Firestone," has been using his medical practice as a clearinghouse for large quantities of amphetamines and barbiturates. Levin passes the drugs on to Jones, who — as he has bragged to one Reading area source — sells them to Pottstown area youth for a 300 per cent profit. At least one large shipment of drugs has been tentatively traced to Hartford, Conn., where it was exchanged for explosives and firearms.

Special Watergating Team

To protect these gun-runners, a team of at least ten new FBI and Treasury Department agents have been deployed into Reading's Berks County. A ranking Pottstown police official reports that he was contacted by Edward Sleman, head of the local office of the Treasury's Alcohol, Tobacco and Firearms (ATF) divisions and ordered to call off further investigations of a recent bombing in the town. The explosives used have been identified as coming from Jones.

Such FBI-ATF illegal interference

with the legal process dates back to 1971. At that time, DA Van Hoove's investigations into organized crime in Berks County brought him dangerously close to putting the FBI and ATF in a compromising position. Orders came down from FBI officials in Washington, D.C. to get Van Hoove. Both the Organized Crime Task Force and the ATF were put under the direct control of Reading FBI bureau chief David Allen Raley, who in turn worked in coordination with reporters of the Reading Times in preparing a "watergating" of Van Hoove on the eve of his re-election campaign. Despite break-ins and wire-tappings of his home and office, nothing more substantial than innuendos could be pulled together.

In the face of pending convictions against agents Jones and Goldberg and the scheduled sentencing of Biancone, the NSC drug and gun-running department in Reading stands in immediate danger of being shut down. It is crucial that there be no illegal FBI-ATF interference with the upcoming trial of Frankhauser himself, who is charged with selling explosives while an agent of the ATF. An unimpeded Frankhauser trial can only expose for destruction more of the NSC's Reading operation.

IN ADDITION, FILES WERE RELEASED TO SCHULTZ WHICH INDICATE MAJOR FBI SURVEILLANCE OF THE NCLC NATIONAL CONFERENCE IN MAY OF 1974.

THE SCHULTZ LETTER FOLLOWS BY TWO WEEKS A DECLARATION BY KELLY THAT THE NCLC WAS UNDER INVESTIGATION BY THE FBI FOR POSSIBLE CRIMINAL CHARGES AS A VIOLENCE-PRONE GROUP. KELLY WROTE THIS LETTER IN RESPONSE TO A LETTER FROM CONGRESSMAN DONALD RIEGLE OF MICHIGAN. RIEGLE HAD FORWARDED A LETTER FROM DETROIT LAWYER MAX DEAN CALLING FOR CONGRESSIONAL INVESTIGATION OF FBI COINTELPRO OPERATIONS AGAINST THE LABOR COMMITTEES.

THE FBI "OFFICIALLY" OPENED THIS CAMPAIGN IN FEB., 1975 BY USING THE U.S. IMMIGRATION AND NATURALIZATION SERVICE TO EXCLUDE NORTH AMERICAN LABOR PARTY MEMBERS FRANCOIS BIERRE AND GIANCARLO DALLAVILLE FROM ENTRY INTO THE UNITED STATES UNDER 8 USC 1182 (A) (G), THE MCCARREN ACT SECTIONS OF THE U.S. IMMIGRATION CODE. HEARINGS CONCERNING THE EXCLUSION OF THE NALP MEMBERS FROM THE UNITED STATES WILL BEGIN AGAIN SOON IN SEATTLE AFTER A REPLACEMENT OF THE INITIAL IMMIGRATION JUDGE GREENWALT, WHO DISQUALIFIED HIMSELF FOR "BEING AN ANTI-COMMUNIST."

NCLC LEGAL STAFFS ANNOUNCED TODAY THAT THEY WILL PRESS FOR FULL LEGAL AND CONGRESSIONAL INQUIRIES INTO THE FBI REVELATIONS.

NEW YORK, SEPT. 9 (IPS)--SPEAKING AT A PRESS CONFERENCE HERE THIS AFTERNOON, UNITED FEDERATION OF TEACHERS (UFT) PRESIDENT ALBERT SHANKER REPORTED THAT THE STRIKE OF HIS 80,000 MEMBER UNION WAS "EXTREMELY EFFECTIVE." PICKET CAPTAINS REPORTED TO THE UFT LEADERSHIP "ONLY 600 SCABS HAD CROSSED PICKET LINES IN THE ENTIRE CITY." "MORE THAN 90 PERCENT OF CITY SCHOOLS WERE COMPLETELY SHUT DOWN," CBS RADIO REPORTS.

THE UFT PRESIDENT, REITERATING STATEMENTS MADE LAST NIGHT AT THE MASS UFT MEETING WHICH APPROVED THE STRIKE, STATED THAT "THE ISSUE IS NOT TEACHERS' SALARIES...WE CANNOT ACCEPT THE BOARD OF EDUCATION'S PRESENT OFFER...IT WOULD CREATE CHAOS AND DESTROY THE SCHOOL SYSTEM. WE WILL STAY OUT AS LONG AS IT TAKES TO GUARANTEE THE CHILDREN OF THIS CITY A DECENT EDUCATION."

REFERRING TO THE MORE THAN \$200 MILLION IN CUTS ORDERED BY THE BOARD OF EDUCATION, SHANKER STATED, "THE BANKS SEEM TO THINK THAT EVERYBODY IN THIS CITY SHOULD BE HURT -- EVEN CHILDREN -- BEFORE THEY ARE..."

IMPLICITLY CHIDING THE WEAK CITY GOVERNMENT FOR CAPITULATING TO THE BANKERS' DEMANDS TO CEDE ITS AUTHORITY TO "BANKERS' DIRECTORATE," SHANKER ANGRILY STATED, "I KNOW THERE IS A CITY GOVERNMENT OUT THERE SOMEWHERE...WON'T IT PLEASE STEP FORWARD SO WE CAN BEGIN MEANINGFUL NEGOTIATIONS..."

ANCES, AND ADJOURNED. THE STATE ASSEMBLY LATE LAST NIGHT PASSED THE MEASURE BY A 80 TO 70 MARGIN. GOV. HUGH CAREY IS EXPECTED TO SIGN THE MEASURE INTO LAW TONIGHT.

OF THE \$2.3 BILLION PACKAGE TO BAIL OUT NEW YORK CITY UNTIL DECEMBER, PUT TOGETHER IN THE MAC LEGISLATION, ONLY THE LOOTING OF \$725 MILLION FROM THE PENSION FUNDS OF STATE AND CITY WORKERS IS A RELATIVELY "SURE THING". THE REST OF THE MONEY IS TO BE OBTAINED BY THE STATE BORROWING \$750 MILLION IN TAX ANTICIPATION NOTES FOR THE CITY AND ANOTHER \$800 MILLION FROM GOVERNMENT AND "PRIVATE FINANCIAL SOURCES" -- (NAMELY THE ROCKEFELLER NEW YORK BANKS). PROSPECTS OF RAISING THE MONEY ARE TERMED "HIGHLY DOUBTFUL" BY FINANCIAL SOURCES.

THE NEW MAC LEGISLATION ALSO CREATES A 7-PERSON STATE EMERGENCY CONTROL BOARD TO ENFORCE CUTBACKS, WHICH TODAY'S NEW YORK TIMES GLOATS WILL BE "EVEN MORE SEVERE THAN THE MEASURES TRIED EARLIER BY MAYOR BEAME."

INFORMED SOURCES IN ALBANY INDICATED THAT ALTHOUGH THE SEPCIAL SESSION CALLED BY GOV. CAREY TO CONSIDER THE MAC PLAN IS NOW IN RECESS, THE LEGISLATURE WILL RECONVENE WITHIN THE NEXT MONTH. SOURCES CITED THE GOVERNOR'S STATEMENT LAST WEEK THAT THE LEGISLATURE WOULD HAVE TO REMAIN IN SESSION A FULL MONTH TO WORK OUT THE DETAILS OF THE MANAGED DEFAULT PROCEEDINGS, AS MEANING THAT THE SESSION'S WORK IS STILL UNCOMPLETED.

SEVERAL NEW YORK CITY LIBERAL DEMOCRATS INDICATED THAT THEY PLANNED TO RETURN TO ALBANY IN TWO WEEKS AND INTRODUCE A DEBT MORATORIUM RESOLUTION WHICH WOULD DO AWAY WITH THE MAC PLAN.

"THE PAKISTAN DELEGATION WOULD THEREFORE PROPOSE THAT IN VIEW OF THESE SERIOUS DIFFICULTIES ENCOUNTERED BY THE DEVELOPING COUNTRIES, AN AGREEMENT IN PRINCIPLE SHOULD BE REACHED AT THIS SESSION THAT UNTIL THE OBJECTIVES FOR WHICH THE SPECIFIC DEVELOPMENT LOANS WERE PROVIDED ARE ATTAINED, A MORATORIUM SHOULD BE PLACED ON THEIR AMORTIZATION AND INTEREST PAYMENTS. GAULLIST LEADER CALLS FOR INTERNATIONAL CONFERENCE ON TRADE, DUMPING OF DOLLAR

SEPT. 11 (IPS)--MICHEL DEBRE, LEADING SPOKESMAN FOR THE FRENCH GAULLIST MOVEMENT, SAID YESTERDAY IN THE EXTRAORDINARY PARLIAMENTARY DEBATE ON THE ECONOMIC CRISIS THAT THE INFLATIONARY U.S. DOLLAR MUST BE DUMPED AS THE BASIS FOR A MONETARY SYSTEM AND REPLACED BY A SYSTEM BASED ON THE GOLD STANDARD. THIS MOVE, DEBRE CONTINUED, WOULD BE COUPLED WITH AN INTERNATIONAL CONFERENCE ON TRADE INCLUDING INDUSTRIAL EUROPE, THE U.S., THE SOVIET UNION, THE RAW MATERIALS-PRODUCING COUNTRIES AND JAPAN.

"FROM A PERIOD OF INFLATION WITHOUT GROWTH, WE MUST RETURN TO A PERIOD OF GROWTH WITHOUT INFLATION," DEBRE SAID, ACCORDING TO OFFICIAL NATIONAL ASSEMBLY MINUTES. BLASTING THE ANARCHY OF THE DOLLAR-BASED MONETARY SYSTEM, DEBRE SAID: "THE DOLLAR GOES ON THE RISE TO INSPIRE THE CONFIDENCE OF THE OIL PRODUCERS; IT DROPS IN ORDER TO PROTECT THE U.S. AGAINST EUROPEAN AND JAPANESE IMPORTS. IT IS SUPPORTED TO AVOID EXCESS PURCHASES OF GOLD; THEN IT IS NOT SUPPORTED SO THAT THE U.S. CAN FREE THEMSELVES BETTER OF THEIR DEBTS, BEFORE CONTRACTING NEW DEBTS BY PRINTING NEW DOLLARS WHICH THEY FORCE THEIR ALLIES TO ACCEPT."

"THE HELSINKI CONFERENCE WILL YIELD NOTHING," HE CONCLUDED. "THE CONFERENCE ON RAW MATERIALS AND ENERGY WILL FAIL IF A THIRD CONFERENCE WHICH REESTABLISHES STRICT RULES FOR INTERNATIONAL TRADE IS NOT HELD. THIS SHOULD BE A CONFERENCE IN WHICH THE INDUSTRIAL EUROPEAN NATIONS, THE U.S., THE USSR, THE BIG RAW MATERIALS-PRODUCING COUNTRIES AND JAPAN PARTICIPATE...THOSE WHO REFUSE THIS WILL BE RESPONSIBLE FOR WHAT WE ARE BEGINNING TO SEE -- A RETURN TO PROTECTIONISM. AND WE WILL SEE AN AMPLIFICATION OF THE FORCES IN THE WORLD WHO THINK THAT DEMOCRATS ARE NO LONGER IN THE POSITION TO INFLUENCE INTERNATIONAL DECISIONS."

MAINICHI DAILY NEWS, A LEADING JAPANESE NEWSPAPER, ECHOED KIMURA'S VIEW IN AN EDITORIAL TODAY. REFERRING TO THE PRO-DEVELOPMENT THRUST OF THE THIRD WORLD COUNTRIES, MAINICHI STATED, "THE WORLD IS FAST CHANGING AND JAPAN CAN NO LONGER REMAIN ALOOF FROM THE TIDE. APEL REFUSES TO DENY REPORTS OF WEST GERMAN-THIRD WORLD NEGOTIATIONS ON DEBT MORATORIA

BONN, BRD, SEPT. 11 (IPS)--WEST GERMAN FINANCE MINISTER HANS APEL, SPEAKING AT A PRESS CONFERENCE HERE TODAY, REFUSED TO DENY THAT THE WEST GERMAN GOVERNMENT WAS MEETING WITH MEMBERS OF THE GROUP OF 77 (NON-ALIGNED NATIONS) ON THE QUESTION OF DEBT MORATORIA.

IN RESPONSE TO A QUESTION ON THE REPERCUSSIONS OF SUCH NEGOTIATIONS ON WEST GERMAN RELATIONS WITH THE U.S., APEL STATED THAT THE CABINET HAD ONLY LAST NIGHT BEGUN ITS CONSIDERATIONS OF THE PROCEEDINGS AT THE UN SPECIAL SESSION AND WHAT HE WISHFULLY DESCRIBED AS "THE POSITIVE RECEPTION" BY THIRD WORLD NATIONS TO FOREIGN MINISTER GENSCHER'S SPEECH THERE LAST WEEK. "WE (THE CABINET) HAVEN'T TAKEN UP SPECIAL QUESTIONS YET," HE SAID, REFERRING TO THE DEBT RENEGOTIATIONS. "I WOULDN'T WANT TO SAY ANYTHING HERE ABOUT THEM."

SPEAKING ON THE PLAN'S CHANCE OF SUCCESS, MINISTER APEL CLAIMED "THAT BECAUSE OF THE EXPECTED ECONOMIC UPSWING NEXT YEAR, BUSINESSES NEED NOT MAKE ANY ADDITIONAL INVESTMENTS." THEY WILL PRESENTLY BE ABLE TO UTILIZE IDLE CAPACITY, SAID APEL TO THE CONFOUNDMENT OF THE ASSEMBLED PRESS.

THE SOCIAL DEMOCRATIC FINANCE MINISTER APPEARING WITH INTERIOR MINISTER HANS MAIHOFFER, A FREE DEMOCRATIC PARTY MEMBER, WAS CONCERNED WITH KEEPING UP THE APPEARANCES THAT THE CABINET OF SOCIAL DEMOCRATIC CHANCELLOR SCHMIDT WAS UNITED BEHIND THE PROPOSED AUSTERITY PLANS. HE INSISTED DURING QUESTIONING BY IPS THAT FREE DEMOCRATIC PARTY ECONOMICS MINISTER HANS FRIEDERICHS WAS IN AGREEMENT WITH HIM AND THAT "NO DIFFERENCES OF OPINION" EXIST IN THE FEDERAL CABINET.

MINISTER FRIEDERICHS, WHO HAS FAVORED HIGHER INVESTMENTS AND EXPANDED TRADE AS THE ONLY ALTERNATIVE TO THE DEPRESSION FOR WEST GERMANY, DID NOT ATTEND THE PRESS CONFERENCE. ONE REPRESENTATIVE OF THE FOREIGN PRESS CORPS SUGGESTED THAT PERHAPS FRIEDERICHS WAS ILL, BUT THE EMBARRASSED APEL DID NOT RESPOND.

** PRESIDENTIAL STATEMENT **

U.S. LABOR PARTY CANDIDATE LYNDON H. LA ROUCHE, JR. ON PRESIDENTIAL ASSASSINATION ATTEMPTS

SEPT. 12 (IPS)--"THE CLIMATE WHICH HAS DEVELOPED FOLLOWING THE ALLEGED ASSASSINATION ASSAULT AGAINST PRESIDENT GERALD FORD IN CALIFORNIA REPRESENTS A THREATENED "DESTABILIZATION" OF THE EXISTING CIRCUMSTANCES OF GOVERNMENT IN THE U.S. PRESIDENT FORD'S STATEMENT TODAY MUST BE CHARACTERIZED AS A PATHETIC AND COUNTERPRODUCTIVE GESTURE OF BRAVADO IN RESPECT TO THE REAL DANGERS AND ISSUES INVOLVED. IN THE GENERAL INTEREST, IT IS MY RESPONSIBILITY AS A PRESIDENTIAL CANDIDATE TO PROPOSE A MORE SENSIBLE AND EFFECTIVE APPROACH TO A VERY REAL AND SERIOUS PROBLEM.

THREE POINTS MUST BE CONSIDERED IN DEVELOPING AN EFFECTIVE POLICY:

FIRST, IT IS NOT IMPOSSIBLE THAT THE SITUATION IS WHAT MOST PRESS ACCOUNTS TO DATE PURPORT IT TO BE. SINCE THE MID 1960S, INFLUENTIAL FORCES IN THIS COUNTRY HAVE CONTRIBUTED TO THE PROLIFERATION OF A COMBINED "DRUG CULTURE" AND COUNTERPRODUCTIVE "THERAPY GROUP" PRACTICES, WITH THE EFFECT OF CUMULATIVELY PRODUCING A PLAGUE OF VIRTUAL ZOMBIE PARANOIDS. FOR ELEMENTARY REASONS, SUCH A POPULATION OF DRUG-ORIENTED ZOMBIES INEVITABLY INCLUDES A SIGNIFICANT PROPORTION OF RAPISTS AND HOMICIDALS. FOR EQUALLY ELEMENTARY REASONS, PUBLIC FIGURES TEND TO BE TARGETS FOR HOMICIDAL ATTACK. FURTHERMORE, NOTORIETY GIVEN TO AN ALLEGED ASSASSINATION ATTACK BY AN ASSOCIATE OF CHARLES MANSON MUST TEND TO INCREASE THE PROPENSITY FOR ATTACKS ON PRESIDENT FORD AND OTHER PRESIDENTIAL CANDIDATES.

SECOND, ALTHOUGH WE CURRENTLY POSSESS ONLY CIRCUMSTANTIAL EVIDENCE THAT THE MANSON FAMILY HAS BEEN UNDER SOME DEGREE OF CONTROL BY OTHER AGENCIES, ONLY THE MOST POORLY INFORMED PERSONS ARE UNAWARE THAT MOST OF THE "BLIND TERRORISM" RECENTLY ERUPTED IN NORTH AMERICA AND WESTERN EUROPE HAS ACTUALLY BEEN DEPLOYED BY AGENCIES ASSOCIATED WITH THE NATO INTELLIGENCE SERVICES' ESTABLISHMENT. IN ONE OF THE MORE NOTORIOUS INSTANCES, KNOWN TO BE DIRECTED BY NATO INTELLIGENCE SERVICES, THE BAADER-MEINHOF GANG, OR IN THE INSTANCE OF THE "BLACK SEPTEMBER" GROUP, PSYCHOTICS DRAWN FROM ANARCHIST-ORIENTED DRUG CIRCLES AND "MENTAL HEALTH" PROGRAMS IN AND OUT OF PRISONS HAVE BEEN THE MOST FREQUENT INSTRUMENTS USED BY NATO INTELLIGENCE SERVICES IN TERRORIST ACTIONS.

PRESIDENTIAL STATEMENT P.2

WE KNOW THAT THERE ARE HIGHLY PLACED FACTIONS WITHIN U.S. AND NATO INTELLIGENCE SERVICES WHICH HAVE THE CAPABILITY AND INCLINATION FOR CAUSING THE ASSASSINATION OF PRESIDENT FORD USING A ZOMBIE ASSASSIN. SUCH A TERRORIST ACT WOULD SERVE TO BRING VICE PRESIDENT NELSON A. ROCKEFELLER INTO THE PRESIDENCY IN A CLIMATE APPROPRIATE FOR IMPOSITION OF MASSIVE POLICE-STATE MEASURES AND PROGRAMS OF AUSTERITY MODELED AFTER THOSE OF NAZI FINANCE MINISTER HJALMAR SCHACHT. WHETHER OR NOT MR. ROCKEFELLER WERE IMPLICATED IN AN ASSASSINATION OF FORD, IT IS HIS FACTION WHICH WOULD IMMEDIATELY AND UNIQUELY BENEFIT FROM SUCH A KILLING.

THIRD, THE INGENUOUS TREATMENT OF THE RECENT THREATS OF ASSASSINATION BY THE MAJORITY OF THE PRESS NOURISHES THE SORT OF POLITICAL CLIMATE FAVORABLE TO EITHER A SPONTANEOUS OR ARRANGED ASSASSINATION ATTACK AGAINST PRESIDENTIAL CANDIDATES GENERALLY. THE PRESS HAS THE MORAL AND POLITICAL OBLIGATION TO NEUTRALIZE THAT CLIMATE OF SYMPATHY FOR ZOMBIE SUBCULTURE WHICH FEEDS THE IMPULSION OF POTENTIAL HOMICIDALS TO MAKE SUCH ATTACKS. THE PRESS HAS THE OBLIGATION TO AGGRESSIVELY EXPOSE THE AVAILABLE FACTS CONCERNING NATO INTELLIGENCE SERVICES' RESPONSIBILITY FOR DEPLOYING ZOMBIE-TERRORIST GROUPS. THE PRESS ALSO HAS A RESPONSIBILITY NOT TO ENCOURAGE THE PRESIDENT IN HIS CURRENT, FOOLISH POLICY OF BRAVADO. THE PRESIDENT HAS A RESPONSIBILITY NOT TO FACILITATE THE OPPORTUNITIES FOR HIS OWN ASSASSINATION, AND TO STOP TREATING REAL POLITICS WITH ATTITUDES MORE APPROPRIATE TO A COLLEGIATE SATURDAY FOOTBALL FESTIVITY.

SEPT. 12 (IPS)--PAKISTANI PRIME MINISTER ZULFIKAR ALI BHUTTO HAS REPLACED INTERIOR MINISTER ABDUL QUAYYAM KHAN AS THE VICE CHAIRMAN OF THE AZAD KASHMIR COUNCIL, THE RULING STATE COALITION IN PAKISTANI KASHMIR. BHUTTO, ACTING IN HIS CAPACITY AS CHAIRMAN OF THE COALITION, HAS APPOINTED ABDUL HAFIZ PIRZADA, A CLOSE MEMBER OF BHUTTO'S OWN PAKISTANI PEOPLES PARTY, ACCORDING TO THE LEFT-WING INDIAN WEEKLY, LINK. THIS CHANGE IN THE COALITION, COMPOSED OF FIVE NATIONAL ASSEMBLY MEMBERS AND SIX STATE LEVEL LEADERS, CAME ONLY A WEEK AFTER BHUTTO REMOVED TOP-LEVEL MILITARY LEADERS LINKED TO THE ISLAMIC FANATICAL RIGHT WINGER QUAYYUM, THUS REDUCING THE ABILITY OF THE ISLAMIC AGENTS TO OPERATE FREELY IN THE BORDER REGION NEAR INDIA. SOVIETS MOBILIZE SUPPORT FOR ANTI-MAOIST REVOLUTIONARIES IN CHINA

SEPT. 13 (IPS)--THE SOVIET GOVERNMENT NEWSPAPER, IZVESTIA, YESTERDAY APPEALED TO THE INTERNATIONAL COMMUNIST MOVEMENT TO SUPPORT ANTI-MAOIST REVOLUTIONARIES IN CHINA. "THE PRINCIPLED FIGHT OF REVOLUTIONARIES ALL OVER THE WORLD AGAINST THE HEGEMONIST POLICY OF PEKING HAS FIRST-RANK SIGNIFICANCE," SAID AUTHOR VLADIMIROV, "AND IT IS AT THE SAME TIME AN EXPRESSION OF THE FRATERNAL SOLIDARITY OF COMMUNISTS WITH THE TRUE SUPPORTERS OF SCIENTIFIC SOCIALISM WITHIN CHINA."

THE NATIONALISTIC TENDENCIES OF PEASANT CHINA WERE USED BY THE MAO REGIME TO CREATE AN IDEOLOGY OF GREAT POWER CHAUVINISM, VLADIMIROV WROTE. THUS MANY OFFICIALS "REGARDED MARXISM NOT AS INTERNATIONALIST BY ITS VERY NATURE AS A SCIENTIFIC THEORY, BUT AS A RADICAL MEANS FOR THE 'RENAISSANCE OF THE GREATNESS OF CHINA'."

DESPITE THIS NATIONALISM, VLADIMIROV NOTED "BASIC ELEMENTS OF A SOCIALIST CHARACTER" REMAIN IN CHINA. "UNDER FAVORABLE CIRCUMSTANCES, THESE ELEMENTS COULD REINFORCE THEMSELVES AND TURN IN THE RIGHT DIRECTION, WHICH IN TURN COULD POSITIVELY INFLUENCE THE SUPERSTRUCTURE OF CHINESE SOCIETY. THE MAOIST LEADERS UNDERSTAND THIS AND ARE DOING EVERYTHING TO ENSURE THAT SUCH A TURNING POINT IS NOT REACHED."

IN PARTICULAR, VLADIMIROV WARNED CHINA'S NEIGHBORS OF THE MAOISTS' ADMITTED EXPANSIONIST AIMS. "ANTI-SOVIETISM IS NO GUARANTEE AGAINST PROVOCATIONS BY MAOIST CHINA....THE MUNICH POLICY OF APPEASEMENT OF A POTENTIAL AGGRESSOR IN THE PRESENT NUCLEAR MISSILE AGE CAN TURN FIRST OF ALL AGAINST THOSE WHO TRY TO PURSUE IT....THE WHOLE BOURGEOIS PROPAGANDA MACHINE IS NOW MOBILIZED," VLADIMIROV ADDED, "TO ROMANTICIZE MAOISM AND ITS CREATOR, DISGUIISING THE GREAT POWER, NATIONALIST POLICY OF MAOIST CHINA."

THE ARTICLE CONCLUDED WITH A CALL TO ACTION BY ALL COMMUNISTS: "THE FIGHT OF THE FRATERNAL PARTIES AGAINST THE THEORY AND PRACTICE OF MAOISM IS ESSENTIALLY THE INTERNATIONAL FORM OF HELP FOR THE REVOLUTIONARY CAUSE OF THE CHINESE PEOPLE. THIS IS THE WAY TO SUPPORT THE CHINESE REVOLUTION IN THIS TRAGIC PERIOD, THE FIGHT FOR THE SOCIALIST PERSPECTIVE OF THE CHINESE PEOPLE'S RE-

PUBLIC, FOR RETURNING THE COUNTRY TO THE FIGHT AGAINST IMPERIALISM." QUOTING SOVIET COMMUNIST PARTY GENERAL SECRETARY BREZHNEV, VLADIMIROV WROTE, "WE ARE CONVINCED THAT THIS UNNATURAL SITUATION CANNOT LAST. THIS GLOOMY PAGE IN THE HISTORY OF THE CHINESE PEOPLE, OF THEIR RELATIONS WITH THE SOCIALIST COUNTRIES, WILL INEVITABLY BE OVERTURNED BY THE CHINESE PEOPLE THEMSELVES."

SOVIETS FINGER MAOIST/RIGHT-WING CONNECTIONS IN BRD

SEPT. 13 (IPS)--THE SOVIET YOUTH PAPER, KOMSOMOLSKAYA PRAVDA, EXPOSED THE TIES BETWEEN WEST GERMANY'S MAOISTS AND "BROWN" (RIGHT-WING) POLITICIANS IN AN ARTICLE YESTERDAY: "IT EXISTS, THAT BROWN ICEBERG, AND ITS TIP, VISIBLE ON THE SURFACE OF POLITICAL LIFE, WARNS OF THE NECESSITY FOR VIGILANCE," WROTE AUTHOR G. GURKOV.

GURKOV QUOTED A BOOK BY GUENTHER BARTSCH, RECENTLY PUBLISHED IN WEST GERMANY, WHICH STATES THAT MANY RIGHT-WING NEO-FASCISTS IN THE BRD POSE AS "LEFT RADICALS" AND "ANARCHISTS" AND THAT "AMONG THE HEROES OF THE NEW RIGHT ARE SUCH PEOPLE AS FRIEDRICH THE GREAT, BISMARCK, AND MAO TSE-TUNG."

RIGHT-WINGER FRANZ JOSEF STRAUSS, REPORTED GURKOV, WHEN ASKED HIS OPINION OF THE ACTIVITY OF THE BRD MAOISTS, REPLIED: "VARIOUS GROUPS EXIST HERE. WE HAVE ALREADY SEEN THAT THERE IS SOMETIMES A BASIS FOR RELATIONS WITH SOME OF THESE MAOISTS, WHO HAVE LEARNED THE DOCTRINE OF THE GREAT CHAIRMAN AND WHO DO NOT WANT TO WEAKEN THE FEDERAL REPUBLIC, AND WHO RECOGNIZE THAT WESTERN EUROPE HAS TO BECOME STRONG."

AN ARTICLE IN PRAVDA YESTERDAY SCORED MAOIST SABOTAGE OF THE PORTUGUESE COMMUNIST PARTY, CHARGING THAT "THE SPARSE BUT MALICIOUS AND AGGRESSIVE MAOIST GROUPINGS IN PORTUGAL, CLOSELY LINKED TO PEKING...ARE TAKING PART IN THE BANDIT ATTACK ON PCP OFFICES AND THOSE OF OTHER DEMOCRATIC ORGANIZATIONS."

CUNHAL REJECTS PARTICIPATION IN RIGHT-WING GOVERNMENT

SEPT. 13 (IPS)--PORTUGUESE COMMUNIST PARTY (PCP) HEAD ALVARO CUNHAL AFFIRMED THAT THE PCP "WILL NOT PARTICIPATE IN A GOVERNMENT WHICH IS BASED ON THE PRINCIPLES OF A CLASSICAL COALITION OF PARTIES," SPEAKING YESTERDAY AT A METALLURGICAL FACTORY IN THE LISBON SUBURB OF AMADORA. "THE PCP IS ALSO AGAINST THE FORMATION OF A GOVERNMENT WHICH IS INCAPABLE OF GUARANTEEING THE ACHIEVEMENTS OF THE WORKING CLASS, ESPECIALLY NATIONALIZATION AND AGRARIAN REFORM," CUNHAL SAID.

"WE ARE PREPARED TO UNDERGO ALL EFFORTS IN ORDER TO ARRIVE AT WHAT ONE WOULD CALL A COMPROMISE, IF THE FASCIST THRUST WILL ALSO BE HALTED BY THIS, AND IF THIS WILL ALSO PREVENT A SPINOLA OR A PINOCHET FROM BEING ABLE TO REALIZE A FASCIST PUTSCH IN OUR COUNTRY," CUNHAL CONTINUED. IN THIS RESPECT, HOWEVER, HE STRESSED "WE WILL ADVOCATE NO POLICIES THAT PLACE IN QUESTION THE DEMOCRATIC FREEDOMS ATTAINED BY OUR PEOPLE, OR WHICH WOULD ENDANGER THE SUCCESSES IN THE LIQUIDATION OF THE POWER OF THE MONOPOLIES OR THE REALIZATION OF AGRICULTURAL REFORM."

CUNHAL'S SPEECH WAS REPORTED IN TODAY'S NEUES DEUTSCHLAND, NEWSPAPER OF THE EAST GERMAN COMMUNIST PARTY.

THE LONDON ECONOMIST QUESTIONS ITT PULL-OUT OF PORTUGAL

SEPT. 13 (IPS)--THE LONDON WEEKLY THE ECONOMIST IN TODAY'S ISSUE QUESTIONS WHY INTERNATIONAL TELEPHONE AND TELEGRAPH (ITT) LEFT PORTUGAL LAST WEEK. ITT'S REASONS FOR CLOSING, THE ECONOMIST SPECULATES, COULD NOT HAVE BEEN PREMIER GONCALVES' LAST LAW, WHICH "ADMONISHES THE WORKERS TO INCREASE PRODUCTIVITY."

AT THE BASE OF THE PORTUGUESE WORKERS' COMMITTEES, THE ECONOMIST WRITES, "IS A NORMAL DEGREE OF CONCERN THAT WORKERS GET A FAIR WAGE, EARNED UNDER ACCEPTABLE WORKING CONDITIONS, AND BENEFITS FROM SOCIAL SECURITY." BEFORE THE REVOLUTION, ITT HAD PAID "SHAMEFULLY LOW WAGES AND VIRTUALLY NON-EXISTENT SOCIAL SECURITY," THE ECONOMIST ADDS.

SEPT. 13 (IPS)--WEST GERMAN SOCIAL DEMOCRATIC CHANCELLOR HELMUT SCHMIDT CLAIMED THAT THERE WILL BE "NO REAL INCOME GROWTH IN 1976" IN AN INTERVIEW WITH THE RIGHT-WING RHEINISCHE POST YESTERDAY. SCHMIDT PROPOSED THAT "FACTORY COUNCILS AND CORPORATE LEADERS SHOULD ASK THEMSELVES WHETHER THEY ARE CONSIDERING THE GOOD OF SOCIETY WHEN THEY CONCERN THEMSELVES WITH OVERTIME PAY AND HOLIDAYS INSTEAD OF HIRING UNEMPLOYED WORKERS." HIS PROPOSAL IS A FASCIST MODEL FOR DIVIDING THE INTERESTS OF EMPLOYED AND UNEMPLOYED IN THE BATTLE FOR SO-CALLED LIMITED RESOURCES.

SPEAKING IN BONN THE SAME DAY BEFORE THE SPD PARLIAMENTARY FRACTION LED BY HERBERT WEHNER, SCHMIDT CLAIMED, "I NEVER SAID THAT WAGES WOULD BE A MAJOR BATTLEGROUND IN THE NEXT ECONOMIC PERIOD."

TURCELLO'S MOVE APPEARS TO BE A DIRECT RESPONSE TO THE INTERVENTION OF U.S. LABOR PARTY CANDIDATE FOR NEW JERSEY ASSEMBLY ELLIOTT GREENSPAN IN A PRESS CONFERENCE SEPT. 8 HELD INSIDE THE WATER FILTRATION PLANT. WHEN GREENSPAN CALLED FOR AN IMMEDIATE FULL INVESTIGATION OF THE WATER DISASTER, CITY COUNCIL PRESIDENT CARCELLO ATTEMPTED TO HAVE GREENSPAN REMOVED. SHADOW COMMITTEE WARNS OF HYPERINFLATION

SEPT. 13 (IPS)--THE SHADOW OPEN MARKET COMMITTEE, A GROUP OF ACADEMIC AND BUSINESS ECONOMISTS, SAID THAT THE "EXPLOSION" OF THE FEDERAL DEFICIT THREATENS TO BLOW APART THE FEDERAL RESERVE'S POLICY OF MODERATE MONETARY GROWTH, ACCORDING TO TODAY'S NEW YORK TIMES. THE COMMITTEE HAS BEEN MEETING EVERY SIX MONTHS SINCE SEPTEMBER 1973 TO MAKE RECOMMENDATIONS ON FEDERAL RESERVE MONETARY POLICY.

THE COMMITTEE REPORTED THAT IN 1973-74, THE FED ACQUIRED 23.5 PER CENT OF THE GOVERNMENT'S DEBT, COMPARED WITH ABOUT 11 PER CENT IN THE 1950S. IF THE FED CONTINUES ITS RECENT PRACTICE OF BUYING NEARLY A QUARTER OF THE TREASURY SECURITIES ISSUED IN FISCAL 1976 AND 1977, THE COMMITTEE WARNED, THE EFFECT WOULD BE AN EXPLOSIVE EXPANSION IN THE MONEY SUPPLY--THREATENING LONG-TERM PRICE STABILITY AND REAL OUTPUT. "THE EXPERIENCE OF MOST COUNTRIES SUGGESTS THAT LONG-RUN BUDGETARY CONTROL IS A NECESSARY CONDITION FOR EFFECTIVE MONETARY CONTROL," THE COMMITTEE SAID.

FOR SUPPORT OF CHILEAN JUNTA

THE U.S. STATE DEPARTMENT AND WHITE HOUSE WOULD LIKE TO SEE CHILEAN DICTATOR GENERAL PINOCHET YIELD POWER TO EX-PRESIDENT FREI AND HIS CHRISTIAN DEMOCRATS, THE LE MONDE EDITORS WRITE, BUT "THE INTERNATIONAL DISGUST" AND THE GROWING FERMENT IN CHILE MAKES IT TOO LATE FOR THAT. THE U.S. IS HESITATING "AND BY NOW TRULY PARALYZED," COMMENTS LE MONDE.

THE PAPER THEN ASKS, "HOW IS ONE NOT SURPRISED THAT SOCIALIST COUNTRIES -- RUMANIA AND ABOVE ALL THE PEOPLE'S REPUBLIC OF CHINA -- STILL HAVE DIPLOMATIC RELATIONS WITH SANTIAGO? THEIR CONCERN WITH HAVING A DIFFERENT POSITION FROM THE USSR -- WHICH BROKE WITH THE JUNTA FROM THE BEGINNING -- MIGHT BE CONSIDERED, BUT IS THIS ENOUGH TO JUSTIFY SUCH AN ATTITUDE WHEN SOCIALISTS, COMMUNISTS, AND 'MARXIST-LENINISTS' ARE STILL MURDERED, TORTURED OR EXILED IN SANTIAGO?"

LE MONDE CALLS ON FRENCH PRESIDENT GISCARD D'ESTAING, "SUCH A GOOD FRIEND OF PINOCHET" TO FOLLOW MEXICAN PRESIDENT ECHEVERRIA'S EXAMPLE IN BREAKING RELATIONS WITH PINOCHET.
