

of Dope, Inc.'s adoption of the "Sam Walton" model of mass marketing through reduced prices.

Figures 1 and 2, reprinted from that report, show the steep drop in retail price, and the meteoric rise in heroin and cocaine sales over the past 15 years. They give the lie to the Soros crowd's entire argument.

In the reports that follow, you will be given a tour of Her Majesty's Dope, Inc. empire, with detailed attention focussed upon the activities of Soros, against the populations of the United States and Australia, in particular.

George Soros: a golem made in Britain

by Scott Thompson

Despite the stupid statements that some furry creatures in the U.S. State Department have made recently, praising George Soros's works as an "American," Soros is emphatically not American. Rather, he is a "golem," bearing the stamp "Made in Britain." If he were not so filthy a creature, he would be making speeches from the steps of Buckingham Palace. Calling Soros American, because he resides in greater New York City, is like calling the British troops, who temporarily resided in Washington, D.C., while they burned the White House during the War of 1812, "American."

Where Soros keeps his real money, such as the multibillion-dollar Quantum Fund N.V., is in Caribbean islands like the Netherlands Antilles, that were formerly British or Dutch colonies. If you are from the United States, you cannot invest in any of George Soros's funds, or even receive a prospectus. Soros has, in the past, had financial "near-death" experiences with the U.S. Securities and Exchange Commission, and, apparently, has no desire to cross swords with any U.S. financial enforcement agencies. Yet, one of Soros's select group of investors is the world's wealthiest woman, and head of the British Empire, Her Majesty Queen Elizabeth II.

Once a Nazi . . .

Soros revealed the "secret to his success" on the Adam Smith Show, a financial community gossip hour, aired in 1993 on New York's PBS affiliate, WNET-TV. In that interview, Soros recounted that, during World War II, while he was a teenager, he helped the Nazis loot the country estates of wealthy, Hungarian Jews. Soros thus escaped the Holocaust that eventually led to the deaths of 500,000 Hungarian Jews. After World War II, however, because of his actions, he had to skeddadle from Hungary to escape retribution by the survivors.

Numbers of young people went through similar, traumatic wartime experiences, but few, if any others would later boast

of that wartime misery, as a profound learning experience and basis of later success.

Soros ended up at the London School of Economics, where he became a protégé of then-British Aristotelian Society leader Sir Karl Popper. It was from Popper's writings on *The Open Society* that Soros developed his smarmy, pluralistic hatred of the American republic and of what has been known since the days of Treasury Secretary Alexander Hamilton as the American System of political economy. Others helped train Soros in the depredations of the rentier-financier oligarchic British economic system, epitomized by the British East India Company, that he has followed to this day.

In an exchange of correspondence before his death, Popper, who claims that the authoritarianism of Reason in Plato's Academy was the origin of communism and fascism, lied that he had nothing to do with his "protégé," George Soros. However, news accounts subsequent to Popper's death reveal that he was the source of at least one of Soros's grand schemes, the destruction of Russian science through Soros's International Science Foundation. Sir Karl Popper may prove in history to be a greater "Nazi" than George Soros's former *capo di tutti capi*, Adolf Eichmann.

George Soros got his start in large rentier-financier deals through the intervention of the Rothschild family, which has been part of what has become known as the "Club of the Isles" surrounding the British Sovereign, from the days of Baron Nathan Meyer Rothschild and Napoleon I. After brief polishing in British financial houses, Soros moved to the United States in 1956, where he worked for a couple of years managing the portfolio of an old Hapsburg-linked firm, which managed large holdings of old European money.

With permission from this firm, Arnhold and S. Bleichroeder, Inc., Soros took some of these *fondi* (old family funds) and started Quantum Fund N.V. But, he would not have been nearly as successful had it not been for the intervention of financier George Karlweiss, who was then with Baron Edmond de Rothschild's Banque Privée. At about the same time, Karlweiss was busy launching the international business career of the "Detroit Kid," Robert Vesco, who, with Rothschild assistance, would soon take over the flight capital firm of Investors Overseas Services and milk it for a fortune. Before Vesco was jailed recently in Havana, Cuba, on other charges, this fugitive from U.S. justice had become involved in narcotics-trafficking in Ibero-America.

The Rothschild connection to George Soros continues to be represented in various ways. For example: 1) Nils Taube, an old crony of Soros, who is now on the board of Lord Jacob Rothschild's St. James Capital, continues to be a director of Quantum Fund, N.V.; 2) The recently deceased Sir James Goldsmith, a cousin of the Rothschilds, sold a controlling interest in the gold-mining firm, Newmont Mining, to George Soros (some 8.8%), while selling a smaller amount to Goldsmith's business sidekick, Lord Jacob Rothschild. This helped to position Soros for the British-inspired raw materials grab in precious, strategic, and base metals.
