Impeach the British Puppet Now!

Lyndon LaRouche's Feb. 3 call for an immediate, unrelenting mobilization to remove British puppet Barack Obama from office, by impeachment or resignation, has already registered at, and shaken, the White House. They, as resident representatives of the British imperial enemy of the United States, take seriously the fact that unrelenting war has been declared against them, by their most formidable, and determined, opponent. The question is: Do you take seriously your obligation to join that war to save your nation?

As he did last Spring, when LaRouche called him out for his Hitler-modelled "health reform," President Obama has proceeded full-steam ahead with his treasonous policies. This includes his moves to rip up the Constitution by using his Executive powers to destroy the manned space program, contrary to the legislated will of Congress, in addition to his stated determination to hand power over the very economic existence of the United States to an "independent commission" that will ram through murderous austerity.

Can't you see, that sitting back and waiting until "the time is ripe" to act—as some of LaRouche's critics suggest—can only result in letting this President wreak devastation upon both our population, and our institutions of government? It was precisely such an attitude by which the Germans let their British puppet, Adolf Hitler, consolidate his power, with such horrific, genocidal results.

Today, it is the future of the planet as a whole that depends upon following LaRouche's lead. President Obama is not only committing crimes against the United States, but he represents one of the most significant roadblocks to implementing the global Glass-Steagall standard, and Four

Power agreement, the only means by which mankind can throw off the yoke of the British Empire, and bring on the kind of future we would wish for our grandchildren.

So, think again about LaRouche's call, which we reprint below. Face the reality which demands that you act.

President Barack Obama's stated intention, to shut down and destroy the NASA program at its root, when added to the Hitler-like health-care policy, and the general, destructive features of all other leading Obama policies, is one step too far to bear. There is no longer room on this planet for a United States and a President Obama to occupy the same space.

The need for Obama's ouster, either by resignation or impeachment, is now an existential issue for both our republic and the welfare of the planet generally.

Since the founding of our republic, the existence of our nation has depended upon surges of science-driven and related increases of the productive powers of labor, per capita, and per square kilometer of our territory. Now, especially since the reign of former President George W. Bush, Jr., and now that of Obama, the very means, of science and technology, by which the existence of our republic had formerly prospered, has been destroyed, step, by step, by step. Our industries have gone, the security of our food supplies has been undermined, and now the last bastion of the means of technological progress, the space program, is scheduled for obliteration.

Simply, the time has come, that President Obama must go, either by his own choice, or ours. The intention of our Federal Constitution demands this.
