

## DUMONT CALLS FOR AMERICAN WORKERS TO SACRIFICE

ROME, Nov. 10 (IPS)--In an exclusive interview with IPS at the World Food Conference here, French agronomist and CIA agent Rene Dumont called for drastic cuts in the meat consumption of American workers. Mouthing the Rockefeller line, Dumont stated that American workers had increased their meat consumption over the past 20 years and therefore they could afford to sacrifice it now "to allow animal feed grains to be fed to Third World human populations."

Dumont opposed the use of fertilizers because they "ruin the soil." "I prefer manure," Dumont stated.

When IPS questioned Dumont on his responsibility for one billion deaths in the Third World, Dumont sputtered, "Madam, the interview is over."

Kicked out of Cuba in the 1960s as a CIA agent, Dumont is one of the leading "radical" professionals in the Food Conference "Forum" group set up to mask the Rockefeller genocide plan with pseudo-left rhetoric.

### CIA AGENT DUMONT PEDDLES ROCKEFELLER FOOD LINE IN ROME

Nov. 8 (IPS)--In an interview this week with the Italian daily Il Globo, CIA agent Rene Dumont confirmed his credentials as a henchman for Rockefeller's genocide.

Under a guise of concern for the Third World famine victims, the French agronomist Dumont blames the food crisis on the consumption of animal protein in the advanced sector: "The use of grain for livestock raising instead of for feeding malnourished or starving peoples makes us appear as cannibals." This is the exact line retailed by Rockefeller agents to rationalize the full-scale assault on industrial workers they are planning. Dumont pushed the same cannibal theme at the World Population Conference in Bucharest in August and in an article on "Population or Cannibalism" featured in the UN monthly publication Forum in October.

At the same time Dumont is scrambling to pull a radical left cover over his bald fascist stance. The Mexican daily Excelsior, always quick to retail the CIA's "anti-imperialist" rhetoric, quotes the barbaric Dumont as charging the multinationals with "use of cereals as a strategic arm" and calling for a "Third World debt moratorium."

Dumont, expelled from Cuba as a CIA agent in the 1960s, recently asserted to European Labor Committee organizers in France that it "didn't matter at all" if Aurelio Peccei, founder of the bestial Zero-Growth Club of Rome, was working for the CIA.
