

UAW Provides the Boot

Maze admitted to IPS that the union fully cooperates with these coercive techniques. They have a good working relationship, she said, and feed each other information on worker-abusers. Since July, she has referred at least 250 workers to "agencies." "With the threat of severe penalty over the worker's head, union cooperation provides a good foot in the worker's back to force him to get treatment," she said. "Regardless of how you get him there," she concluded, "even if it's against his will, the treatment is always effective." "We don't fire workers," she replied, when asked what happens to workers if they cannot be coerced. "They get themselves fired."

The lawyer handling the Flint case said today that, based on the collected evidence and Mayes' corroboration, the Labor Party can move ahead to prove that every one of these so-called alcohol or drug programs is unconstitutional. The Constitution still provides citizens with the right to refuse medical treatment and prohibits such coercion. The Labor Party is moving now to mobilize our forces quickly. We can abolish factory brainwashing before this constitutional guarantee is abolished by Rockefeller and his Fourth Reich war-ministers.

MARCUS TO TESTIFY AGAINST ROCKEFELLER AT HOUSE HEARINGS

Nov. 21 (IPS)--Lyn Marcus, National Chairman of the National Caucus of Labor Committees and representative of the U.S. Labor Party, will testify Tuesday Nov. 26 for 15 minutes before the House Judiciary Committee hearings, speaking against the confirmation of Nelson A. Rockefeller as Vice President of the United States.

Marcus' testimony will develop explicit evidence of the criminal unsuitability of Rockefeller--mass murderer of 30 million people through starvation-genocide this year alone--to fill that post. The testimony will focus on Rockefeller's conspiracy to overthrow the Constitution of the United States and establish a military-fascist dictatorship here during 1975.

Marcus speaks for the 300,000 people who voted for the Labor Party in the recent elections. The Labor Party's testimony expresses the determination of the American working class--of whom 95 per cent, according to Labor Party national polls, hate Rockefeller's guts--to organize with the Labor Party to stop Rockefeller.

Workers, outraged at the deliberate press blackout of Marcus' Sept. 26 testimony before the Senate Rules Committee, are alerted all over the country to Tuesday's appearance. Worker networks are organizing to ensure full national coverage of Marcus' testimony Nov. 26.
