**Obama at the Crossroads:**  
**The Unitary Executive Issue**  
**by Nancy Spannaus**

Sept. 5—With his signature drive for Nazi health care in shambles, and a large proportion of the American people in a mass strike revolt against the Administration, President Barack Obama has arrived at a crossroads. On the one side stand Wall Street and London, and their representatives in the Administration, who are demanding that the President exert dictatorial powers, as established by Vice President Dick Cheney and President George W. Bush, under the Unitary Executive theory, on behalf of their fascist austerity drive. On the other side, stands Obama himself, who wants to defend his prerogatives as President of the United States against any encroachments.

It is this friction within the Obama Administration which will determine the immediate future course of the United States, and thus, of civilization itself, said Lyndon LaRouche today....

- **Obama at the Crossroads:**  
**The Unitary Executive Issue**

There is a sharp fault line in the Obama Administration between those out to save the Obama Presidency, versus those committed to the London/Wall Street radical austerity plan, which demands dictatorship. This latter grouping advocates the concept of the Unitary Executive, a doctrine of imperial law, as exercised by former Vice President Cheney and his puppet George W. Bush.

- **The Truth Will Out:**  
**Britain's Euthanasia Scandal**

In April, **Lyndon LaRouche** charged that President Obama's health-care policy was a copy of Hitler's cost-cutting dictum that 'lives unworthy of life' be granted a 'mercy death,' including death panels to determine which categories of people could live, and which should die. Now, LaRouche's charges have been backed up by a bombshell from Great Britain.

- **The Wennberg Dartmouth Atlas Hoax:**  
**The Relation of Frailty and Poverty to Health-Care Needs**

Part 2 of a study by **Dr. Ned Rosinsky, M.D.**, exposing the fraud of the 'Dartmouth Atlas of Health Care 2008,' which provides the ideological underpinnings for the Nazi health plan promoted by the Obama Administration. By manipulating statistics to eliminate the effects of poverty and frailty on health-care costs, Obama's economic behaviorists claim they can cut Medicare and related health-care

costs by 30%.
