

‘CHILDREN OF SATAN III’

LaRouche Bares Roots Of Cheney’s Fascism

by the Editors

The third of the series of “Beast-Man” reports issued by Lyndon LaRouche’s Democratic Presidential campaign, hit the streets of Washington, D.C. on June 16. The new pamphlet, which exposes the U.S. and British pro-imperialist forces behind the crimes of Lynne Cheney’s carpet-chewing husband Vice President Dick Cheney, went like hot-cakes in the Super-Watergate atmosphere of the nation’s capital. The intensive circulation of Children of Satan pamphlets I and II, in more than a million copies combined over the past year, has played a pivotal role in creating that Watergate atmosphere. LaRouche has called for a press run of 1 million for “Children of Satan III.”

As you will see in our *National* section, LaRouche’s pamphlets have served as a virtual road-map for some members of Congress in their fight against Cheney, and have inspired other sections of the extended institution of the Presidency to take unprecedented actions to free the nation of the shameful legacy of the Bush Administration. In private conversation in Washington, and increasingly in the pages of the cornered neo-conservatives’ publications, LaRouche and his associates are well known as the prime movers for Super-Watergate.

As the new pamphlet emphasizes, it is not just Cheney and his accomplices who are on the hot seat, for the devolution of the United States toward creating a worldwide New Dark Age, but the corrupt leadership of the Democratic Party as well. Thus, the timing of the pamphlet to saturate Democratic Party layers prior to the Convention scheduled in late July.

A Campaign of Cultural Warfare

We publish in this issue the full contents of *Children of Satan III*. In a press release issued June 14, the candidate summarized the pamphlet’s content and significance as follows: “The report, aptly entitled ‘The Sexual Congress for Cultural Fascism,’ traces, with hard fact, the political origins of the current connection of Cheney and his accomplices to an operation launched back during the 1940s, by Franklin Roosevelt-hating circles from locations including London, New York City, and Nashville, Tennessee. This subversive operation against our republic was opened at the close of World War II, by rogue elements of our establishment

who were working in concert with selected remnants of the Nazi apparatus. This operation was intended to be a campaign of fascist-like culture warfare against the Classical traditions of the United States and other nations. There is no mere coincidence in what is now the obvious fact, that Nazi precedents have been copied, wittingly, by agents of the Cheney-Bush Administration for the Hitler-like crimes which that Administration has authorized and perpetrated in prison-camps in Gitmo, Afghanistan, and Iraq.

"The report documents a case which exposes the alliance of U.K. Prime Minister Tony Blair and the Cheneys for launching what Cheney et al., have defined as 'preventive nuclear warfare' against a series of Eurasian targets. This ongoing operation by them, is a product of the widespread undermining of the minds and morals of many on both sides of the Atlantic, by means of a program of cultural warfare conducted by circles associated with Allen Dulles and others to uproot the character of President Franklin Roosevelt's U.S.A. as the world's leading producer nation. For that purpose, these circles have worked for about 60 years, in their intention to uproot Classical cultural values such as those of Roosevelt's U.S.A., in occupied and post-occupation Germany and other nations as well.

"This program of cultural warfare, which produced the 'rock-drug-sex youth-counterculture' of the late 1960s, and the outburst of international drug-trafficking, among other effects, was conducted under a scheme launched by the Fabian utopian fanatics H.G. Wells and Bertrand Russell, a scheme which included Russell's publicly stated September 1946 policy of "world government" through terror of nuclear

weapons. The documented evidence is, that this has included Russell's so-called 'cybernetics project,' Fabian-promoted Fellowship-style 'religious fundamentalism,' and the general depravity spread under the rubric of 'The Congress for Cultural Freedom.' The cultural corruption induced by these and related means, created the preconditions under which 'Beast-Man' Cheney's policies and practices would be tolerated to the degree this has been the case.

"An appended feature of the report documents a related international press operation against my candidacy. This operation has been launched into continental Europe and U.S.A. leading press itself, directly out of war-mongering Fabian Prime Minister Tony Blair's 10 Downing Street, through Blair's fellow-creatures of the liberal-imperialist Fabian Society. The roster of the latter creatures includes, prominently, Cheney family crony and British Baroness Liz Symons, her family, and other circles in London. This operation, launched from London at the time of the Blair government's role in the case of the alleged suicide of the British intelligence professional Dr. David Kelly who exposed the 'sexed-up' character of the information used to launch the Iraq war, had been planned to be unleashed, through leading press circuits in the U.S.A., during the June and July period, as part of a British government intervention into the programming of the upcoming Democratic National Convention in Boston, this year.

"Now, the most recent British elections have given Blair himself a politically bloody defeat. One wonders how many accomplices he will continue to find among the organizers of the Boston Democratic Convention, or anywhere else, for that matter."
