

The Murder of Greece

July 14—Upon reflection on the new and brutal cruelties just imposed on the Greek nation and people by European “leaders,” Lyndon LaRouche declared last evening,

This is a genocide, which is being steered from Britain, and it is the death knell of the European Union.

The EU will disintegrate. It is the British Empire which has done this. They operated through the German Finance Minister, Schäuble, who represents the extreme right-wing influence on German Chancellor Merkel. But Germany cannot get by with this. Therefore, it, too, now will go into a crisis.

And more than that, this British-driven breakdown crisis of the European Union, also represents a serious and immediate danger of war with Russia, and one of fascism.

The day also saw the thorough exposure of Hillary Clinton’s disqualifications as a Presidential candidate, by the simple five-word question demanded of her by LaRouche PAC representative Daniel Burke at her New York City speech: “Will you restore Glass-Steagall?”

Her failure to answer, and then her advisor’s statement to the press that she will oppose Glass-Steagall, became growing news all over the United States and in the British press.

Responding to this development, LaRouche stated:

Hillary’s political career was a mistake. She’s a lawyer, not a scientist. She was asked a question, and refused to tell the truth about it in public. That will kill her.

Her career is now based on supporting Obama—both in her refusing comment, and then in her consultant opposing it. Both reflect the fact that she’s still with Obama.

This means that she’s exposed as a fake. She has no Glass-Steagall policy, when members of the Senate, do have one. She’s implicitly finished in political life, and that, through her own fault. She blew her career, by acting like a dummy opportunist.

The two matters are directly linked, as LaRouche PAC’s Burke made clear in his interviews with press: The euro debt breakdown can trigger a trans-Atlantic banking crisis at any time, and the only sure action against that is to restore Glass-Steagall to force, fast, in the United States in order to push it through in Europe. That is why Senators moved on Glass-Steagall legislation this week, knowing the rapidly growing danger of a new and greater financial crash.
