

LyFC Not Bankrupt; World Economy Is!

With this headline, the LaRouche Youth Movement in Mexico issued a statement addressing the crisis triggered by the Mexican government's Oct. 10 seizure of the Luz y Fuerza del Centro (LyFC) electricity company. The leaflet locates the recent Mexican developments in the broader international context that Lyndon LaRouche has explained with his Triple Curve graphic, and urges people to participate in LaRouche's Nov. 11 webcast. The leaflet states:

"The seizure of Luz y Fuerza del Centro, although ominous, is only a taste of the kind of fascist austerity that is accompanying the ongoing world financial collapse, which the economist Lyndon La-

Rouche has warned you about for years. It is an action ordered by the international financial oligarchy, headed by the British Empire, to destroy entire nations within that collapse, including Mexico. The financial vultures have already announced it: First they plan to annihilate LyFC and the electrical workers; then the teachers; then Pemex ... and then, you, dear reader. ...

"What's at stake in the assault on LyFC is not simply the appropriation of energy resources internationally, but rather the destruction of the nation-state and its ability to maintain vital functions for the population, reducing energy flux density for the economy. It is the same depopulation doctrine that they are trying to sell you with the 'environmentalist' promotion of 'alternative energy sources,' whose objective is the reduction of available energy and thereby also of agro-industrial development."
